I. PROJECT STATUS SUMMARY

A. Project Description

The sbX E Street Corridor BRT Project is an Omnitrans transit improvement project that consists of three components.

E Street Corridor: A 15.7-mile-long Bus Rapid Transit corridor that will connect the northern portion of the City of San Bernardino with the City of Loma Linda. The sbX E Street Corridor Bus Rapid Transit (BRT) Project has evolved as the highest priority corridor identified in the System-Wide Transit Corridor Plan for the San Bernardino Valley.

Bus Purchase: In order to provide service to the E Street Corridor a total of fourteen 60' articulated buses will be purchased.

Vehicle Maintenance Facility Modifications: A 4.4-acre facility maintaining and servicing the Omnitrans' bus fleet, comprised of over 160 buses. Modifications to Omnitrans' facility include the demolition of a bus washing station, removal of abandoned underground fuel tanks and new construction of a bus washing system, a new Genset, a three-lane CNG fueling station, and re-configuring the bus parking area. Modifications to the maintenance building are made in order to accommodate Omnitrans' 60-foot articulated bus fleet.

**SUBJECT: OMNITRANS' DIRECTOR OF FINANCE REPORT ON THE PRICE
OF COMPRESSED NATURAL GAS (CNG)**

FORM MOTION

Receive and file the Director of Finance's update on the price of compressed natural gas as recommended by Committee Chair Ed Graham at the Administrative and Finance Committee meeting on August 13, 2015.

BACKGROUND

The Forward Fuel Purchase Program ended August 31, 2015, with authorization by the Board of Directors to initiate another hedging program for up to twelve (12) months should the price of natural gas increase to or exceed \$0.92 per gallon budgeted for Fiscal Year 2016.

The price of natural gas on the open market continues to be lower than anticipated. The steady downward trend started in January 2015 and continues to be below average through March 2016. The chart below gives a history of Omnitrans' price per gallon of natural gas for the past sixteen (16) months (Jan 2015 – April 2016).

The price per gallon decreased from a high of \$0.855 in January 2015 to a low of \$0.622 for April 2016. The price per gallon continues to be well below the \$0.92 budgeted for FY2016. The average price per gallon for the first ten (10) months of FY2016 (Jul 2015 – Apr 2016) is \$0.688 or \$0.232 below budget. This equates to an estimated monthly saving of \$89,668 (\$0.232 x 386,500 gals).

We will continue to monitor the price of natural gas on the open market to determine if and when it would be prudent to implement a new hedging program.

**SUBJECT: ADOPT PROPOSED REVISION
PERSONNEL POLICY #603 – RETIREMENT PLAN**

FORM MOTION

Recommend the Board of Directors adopt proposed revision to the Personnel Policy #603, Retirement Plan, whereby requiring Management/Confidential employees to pay the entire seven percent (7%) employee contribution to the California Public Employees Retirement System (PERS) through payroll deduction beginning July 1, 2016, along with a corresponding seven percent (7%) increase in wages to offset the deduction.

This item was reviewed by the Executive Committee at its April 5, 2016, meeting, and was supported and moved forward to the Administrative and Finance Committee seeking recommendation to the Board of Directors for adoption.

BACKGROUND

Since Omnitrans began in 1976, its employees have been covered under the California Public Employee's Retirement System (PERS). In accordance with Personnel Policy #603 – Retirement Plan, Omnitrans has paid both the employer and employee contributions for Management Confidential (non-represented) employees. Positions represented by a Memorandum of Understanding (MOU) are paid in accordance with their respective MOUs.

The Board of Directors amended the CEO/General Manager's contract in February 2015 requiring the CEO/General Manager to pay five percent (5%) of the employee's contribution to PERS through payroll deduction. In addition, the Board of Directors also approved the amended CEO/General Manager's contract on April 6, 2016, now requiring the remaining two percent (2%) of the employee's contribution to be paid by the CEO/General Manager through payroll deduction; this action now has the CEO/General Manager paying the entire employee contribution to PERS. Along with these deductions, the Board of Directors also approved a corresponding adjustment to wages to offset the deduction; five percent in February 2015 and two percent effective February 2016.

Beginning July 1, 2016, Omnitrans proposes a revision in Personnel Policy #603, Retirement Plan, which would require Management Confidential employees to pay the entire seven percent (7%) employee PERS contribution through payroll deduction. In addition, Omnitrans proposes a corresponding seven percent (7%) increase in salary to offset the deduction. The cost to Omnitrans for this change is \$57,784.17, which covers a higher salary base for FICA, SDI, and the Employers PERS contribution. The seven percent (7%) that the Agency has paid toward the employee PERS contribution would instead be paid in salaries.

CONCLUSION

Recommended adoption of this action will be presented to the Board of Directors on May 4, 2016, and incorporated in the Fiscal Year 2017 budget.

SUMMARY OF PROGRAMS

REVENUE BUDGET

The revenue budgets are developed to provide the foundation for determining the activities of the organization. Operating revenues are derived from various sources such as: Farebox - fare revenue collected from passengers that utilize our Fixed Route, Omnibus and Access services; Advertising - revenue for advertisement on our coaches' shelters and in and on the sides of our coaches; Interest - revenue from the investment with Local Agency Investment Fund (LAIF). Federal, state and local programs are additional sources of operating revenue. Capital revenue are funds collected from federal, state, local and special incentive programs which the Agency utilizes to purchase capital assets such as buses, equipment, and other depreciable assets. The Planning, Marketing, Operations and Finance departments work together to develop the agency's annual service plan. This service plan in turn is used to project the revenue needed for the upcoming fiscal year.

SUMMARY OF PROGRAMS

OMNIGO/PURCHASED TRANSPORTATION:

2500

Omnitrans uses purchased transportation to provide two types of fixed route service: 1) weekend service on routes that consistently have low weekend loads; and, 2) OmniGo local circulator service. The use of purchased transportation on weekends is designed to match a smaller cutaway vehicle with a 16-18 passenger capacity to routes that rarely see more than 16 passengers on board at one time. OmniGo service is a neighborhood shuttle service that uses the same smaller vehicles in regular fixed route service. The OmniGo program was designed to augment OmniLink after multiple years when the standalone version of OmniLink did not meet standard.
