TO: Committee Chair Penny Lilburn and Members of the Plans & Programs Committee

THROUGH: Erin Rogers, Interim CEO/General Manager

FROM: Jeremiah Bryant, Director of Strategic Development

SUBJECT: HOLD CONNECTFORWARD PUBLIC HEARING

FORM MOTION

Close this public hearing related to proposed service changes in the ConnectForward Plan.

BACKGROUND

In December 2019, the Omnitrans Board of Directors authorized staff to call for public hearings for the ConnectForward Plan. ConnectForward is the proposed service plan to prepare the agency for future regional transit needs and to ensure long-term financial sustainability. The plan calls for an 11% service reduction (71,000 revenue hours equivalent to $5 million per year) in order to achieve a balanced operating budget forecast through 2040.

Omnitrans scheduled 22 public meetings to be held across the San Bernardino Valley. The majority of these meetings were scheduled at transit centers, community centers or civic centers so that staff went to the public instead of asking the public to come to Omnitrans. Given the potential impact from the service changes, two meetings were scheduled to take place in front of Omnitrans Board Members so that Omnitrans’ customers can provide comments directly to the Board. Those meetings are the January 22, 2020 Plans and Programs Committee Meeting and the February 5, 2020 Board of Directors Meetings. The full list of public meetings can be found in Attachment A.

The proposed service changes are detailed in both Attachment A: Public Outreach Materials and Attachment B: Public Hearing Presentation. The Public Outreach Materials will be set up in the Omnitrans Main Lobby in large format so that participants can gain further information prior to the meeting.

Following the close of this public hearing, the public will have the opportunity to continue to provide input until February 13, 2020 at 5:00 P.M. The feedback from all meetings will be collected, analyzed and shared with the Board of Directors. This information will allow for the further refinement of the ConnectForward Plan. The refined ConnectForward Plan is scheduled to be presented to the Board of Directors for potential adoption on April 1, 2020.
CONCLUSION

Conducting this public hearing provides an opportunity to gain feedback to further refine the ConnectForward Plan so that it may be brought to the Board for adoption.

ConnectForward
Omnitrans’ FY2021-2025 Short-Range Transit Plan

➢ ConnectForward is Omnitrans’ 5-year business plan through 2025

➢ ConnectForward’s primary focus is to ensure a financially sustainable transit network by realigning resources in line with a 5-year, 25+% ridership decline

➢ It is necessary to implement an 11% service reduction in September 2020

➢ Service Change Guiding Principles:
  • Minimize Customer Impact
  • Business Approach: Maximize Efficiency & Productivity
  • Maintain Core Weekday Productivity Network
  • Reduce Coverage Area Duplication
  • Provide Only Mandated ADA Service
  • Maintain Service Quality
  • Minimize Impact on Employees
  • Provide Service to All Member Cities

➢ ConnectForward was created to balance the agency's budget and prepare for future regional and community transit needs

➢ Please review proposals & submit comments prior to February 13, 2020:
  • Public Meeting Comment Card
  • Email: Planning@Omnitrans.Org
  • Phone: 909.379.7150
  • Mail: Strategic Development Dept., Omnitrans, 1700 W. 5th St. San Bernardino 92411

Route Eliminated. Barton Ave. covered by new Route 305

Route Eliminated. Area still covered by Route 309

Combination of Route 80 & 86. Route extends to Riverside County Line for transfer to RTA. Route operates Weekdays & Saturday

Route eliminated except for Chino High School Bell Trips Service replaced by Chino Hills Micro Transit Service.

Upland OmniGo. Replaces northern parts of Routes 83 & 84.
1. Eliminate Beyond Boundary Service (Pink)
2. Reduced service area from fixed route service changes: Parts of Chino Hills, Chino, Ontario and Grand Terrace (Light Pink)
3. New service area from new fixed route services: Ontario (Green)
4. Elimination of Weekend Access service due to change to OmniGo Yucaipa (Yellow)
5. Call ahead reservation window reduced to 3-days.

MicroTransit Pilot Program

MicroTransit is a general public curb-to-curb pick-up to drop-off service that is technology enabled and uses a mobile phone app to request service. This is similar to an agency operated Uber or Lyft Service. Can provide both General Public and ADA service.

First MicroTransit Pilot: Chino Hills

Proposed MicroTransit to replace OmniGo 365. Weekdays only, 6am-6pm. $5 per trip. Free Transfer to Fixed Route.
• Proposal to prepare the Omnitrans for future regional transit needs and to ensure long-term financial sustainability

• Plan includes:
  – Frequency Changes
  – Route realignments
  – Route elimination
  – New routes and services
  – OmniAccess Changes

• Details Available:  
  www.Omnitrans.Org/ConnectForward
• **ConnectForward’s** primary focus is to ensure a financially sustainable transit network by realigning resources in line with a 5-year, 25+% ridership decline

Aaron Moore, Director of Special Transportation Services
Suzanne Pfeiffer, Director Human Resources
Art Torres, Director of Procurement
Don Walker, Director of Finance
Rick Barone, Materials Manager
Omar Bryant, Maintenance Manager
Anna Jaiswal, Development Planning Manager
Angelica Jara, Contract Review Analyst
Maurice Mansion, Treasury Manager
Megann Martinez, Administrative Clerk
B. ANNOUNCEMENTS/PRESENTATIONS

There were no announcements.

C. COMMUNICATION FROM THE PUBLIC

There were no communications from the public.

D. POSSIBLE CONFLICT OF INTEREST ISSUES

There were no Conflicts of Interest Issues.

E. DISCUSSION ITEMS

1. Approve Plans & Programs Committee Minutes – July 24, 2019

M/S (Spagnolo/Rutherford) that approved the Committee Minutes of July 24, 2019. Roll call vote was taken and the motion was passed unanimously by Members present.

2. Adopt Proposed Calendar Year 2020 Committee Meeting Schedule

M/S (Dutrey/Dailey) that adopted the proposed calendar year 2020 Committee Meeting Schedule. Roll call vote was taken and the motion was passed unanimously by Members present.

3. Recommend the Board of Directors Adopt the Service Adjustment /Realignment Guiding Principles and Overall Scale of the Proposed Service Reduction/Realignment at 71,000 Service Hours Per Year and Receive and Forward to the Board of Directors the Preliminary Draft Fixed-Route Service Proposals

Deputy General Manager, Erin Rogers provided some background information and mentioned that staff met with most of Members and city staff to review the proposed service reductions in more detail. She stated that the last few meetings with the Members are scheduled prior to the November 6th Board Meeting.

She introduced Director of Strategic Development, Jeremiah Bryant to present the item.

Member Spagnolo thanked staff for the presentation provided to the City of Rancho Cucamonga and stated that the discussion was productive, and the maps were very insightful.
Member Dailey agreed with Member Spagnolo and commended staff for a job well done.

Legal Counsel, Steve DeBaun arrived at 9:23 a.m.

Member Dutrey asked what metrics would be used to determine whether the service reduction plan is successful. Ms. Rogers stated that information would be included in the upcoming budget proposal and stated that the data will be readily available moving forward. These items will be included in the FY2021 Management Plan and Quarterly Key Performance Indicators reporting during FY2021.

Member Rutherford also commended staff on their presentation and was pleased with the outreach efforts and communication.

Member Moran also thanked staff for their presentation to the City of Chino Hills and stated that they are receptive to the Microtransit Pilot Program. She mentioned that one of their concerns discussed during the meeting with Omnitrans staff was regarding the high school students who use the Omnigo Service. Lastly, Member Moran stated that their City would be tracking the Microtransit Program as well.

Member Wapner echoed the Members comments regarding the staff’s efforts.

Member Lilburn thanked the staff as well.

M/S (Spagnolo/Dutrey) that:

A) Recommended the Board of Directors adopt the Service Adjustment/Realignment Guiding Principles and overall scale of the proposed service reduction/realignment at 71,000 service hours per year and;

B) Received and forwarded to the Board of Directors the preliminary draft fixed route service proposals.

Roll call vote was taken and the motion was passed unanimously by Members present.

4. Receive and Forward to the Board of Directors, Initial Draft Proposed ADA Access Service Changes

Director of Strategic Development, Jeremiah Bryant, provided a brief background on this item as detailed in the staff report.

Member Moran left the meeting at 9:37 a.m.

Member Wapner left the meeting at 9:45 a.m. but noted for the record that he was in support of the remaining items.

Member Dutrey had some questions regarding the number of trips provided outside the service area. He also had questions regarding the costs associated with the Lyft Program. Mr. Bryant provided additional information.
M/S (Dutrey/Dailey) that received and forwarded to the Board of Directors this report which identifies initial draft Access service change proposals based on the Ad Hoc Committee’s recommendations. Roll call vote was taken and the motion was passed unanimously by Members present.

5. Receive and Forward to the Board of Directors, Zero Emission Bus Regulation Roll-Out Plan Update

Director of Maintenance, Connie Raya provided a brief background on this item as detailed in the staff report.

The Committee engaged in a robust discussion and expressed concerns with Southern California Edison potentially not having the capacity to meet the demand. There was also some discussion regarding funding, the infrastructure and the project timeline. Ms. Rogers stated that staff is taking a conservative approach as more information becomes available. She noted that SBCTA is currently conducting a countywide electrification study that will help inform the process moving forward.

M/S (Spagnolo/Dutrey) that received and forwarded to the Board of Directors an update on the Zero Emission Bus Regulation and Roll-Out Plan. Roll call vote was taken and the motion was passed unanimously by Members present.

6. Receive and Forward to the Board of Directors, West Valley Connector Project Update

Development Planning Manager, Anna Jaiswal introduced Victor Lopez, Program Manager, Transit and Rail, SBCTA to provide a brief update on the West Valley Connector Project.

Member Lilburn had questions as to whether the project was continuing. Mr. Lopez responded that the project was transferred from Omnitrans to SBCTA and is still moving forward. He reviewed the status of the project and the proposed alignment.

Ms. Rogers clarified that SBCTA was working on the project delivery process and Omnitrans would be the operator. She stated that Omnitrans is working with SBCTA as the project moves forward through the project development phase.

Member Spagnolo stated that the City of Rancho Cucamonga was not in support of the proposed routes.

M/S (Dutrey/Dailey) that received and forwarded to the Board of Directors a project update for the West Valley Connector project. Roll call vote was taken and the motion was passed unanimously by Members present.

F. REMARKS AND ANNOUNCEMENTS

There were no announcements.
G. ADJOURNMENT

The Plans & Programs Committee meeting adjourned at 10:20 a.m. The next Committee Meeting is scheduled Wednesday, January 22, 2020 at 09:00 a.m., with location posted on the Omnitrans website and at Omnitrans’ San Bernardino Metro Facility.

Prepared by:

Araceli Barajas, Sr. Executive Asst. to the CEO
Clerk of the Board
DATE: January 22, 2020

SUBJECT: WEST VALLEY CONNECTOR PROJECT UPDATE

FORM MOTION

Receive and forward to the Board of Directors this project update for the West Valley Connector project.

BACKGROUND

The West Valley Connector (WVC) is the second Bus Rapid Transit (BRT) line planned for implementation in the San Bernardino Valley. In 2015, Omnitrans completed an Alternatives Analysis (AA) for the WVC, working closely with the cities of Fontana, Montclair, Ontario, Pomona, and Rancho Cucamonga, as well as SBCTA, SCAG, and other stakeholders such as Metrolink, Ontario Airport, and Ontario Mills. In 2017, the project was transferred to the San Bernardino County Transportation Authority (SBCTA) in order to better coordinate funding strategy and capital project delivery.

SBCTA’s primary role in the WVC Project is capital project delivery and funding strategy. Omnitrans’ primary role ultimately is to be the operator of the WVC and serve as the direct applicant/recipient of FTA grants for this project. In this role, Omnitrans provides input to design, funding, grants, and operational topics to ensure that the project can be effectively operated.

Since the last WVC project status update in October 2019, these key actions have occurred:

- In November 2019, SBCTA Board selected the preferred alternative for the final Environmental Impact Report and Environmental Assessment (EIR/EA), including approximately 3.5 miles of dedicated lanes in the City of Ontario. SBCTA expects final environmental approval for the WVC in March 2020. The EIR/EA environmentally clears two phases of the project:
  - Phase 1 from the Downtown Pomona Metrolink Station to Victoria Gardens; and,
  - Phase 2 from Ontario International Airport to Kaiser Permanente Medical Center.
- Phase 1 is likely to be the only phase delivered as part of the Measure I 2010-2040 Program (by 2040) due to funding constraints. There is not currently a viable funding path for Phase 2 during the current forecast period of Measure I.
As part of the phased approach, the SBCTA Board approved enhancing the existing local bus service frequency on Haven Avenue in advance of Phase 2, recognizing that planned development efforts underway may result in increased demand for service along Haven Avenue before Phase 2 is implemented.

- In December 2019, the SBCTA Board approved the 2020 State Transportation Improvement Program (STIP) proposal to nominate WVC for $39.745 million of Regional Improvement Program (RIP) funds.

- At the January 2020 SBCTA Board of Directors Meeting, the Board approved moving forward with two potential full funding proposals. The first proposal is built around receiving $65 million in competitive grants and SBCTA allocating $52,568 million in unallocated, discretionary funding. The second proposal is built around receiving $15 million in competitive grants and SBCTA allocating $102,568 million in unallocated, discretionary funding. These funding scenarios are shown in Table 1. Additionally, at this meeting, the SBCTA Board provided guidance to include the WVC in the planned SB1 grant applications for a total of $65 million.

</tbody>
</table>

* “Committed Amount” means funds identified in SBCTA’s 10-Year Delivery Plan. “New Commitment” means funds over which SBCTA has discretion, beyond the already committed amounts.

** Assumes future LCTOP or CMAQ fund first five years of operating costs.
• In January 2020 SBCTA and Omnitrans jointly applied for $15 million in Transit and Intercity Rail Capital Program (TIRCP) funds for electric buses for the WVC.

**Omnitrans Role.** Omnitrans will be the operator of the new sbX line upon the completion of the WVC project. As the designated FTA grant recipient, Omnitrans will also be the lead applicant for submitting any FTA grant applications, including the Small Starts grant submittal. Omnitrans staff continues to participate in weekly status update meetings/conference calls with SBCTA staff, has participated in public meetings and key stakeholder meetings, and has facilitated Omnitrans review of vital project documents.

Recently, Omnitrans staff has facilitated review of preliminary design alternatives being studied by SBCTA staff and the Parsons consulting team, including alternatives for a single bidirectional dedicated bus lane on Holt Boulevard in Ontario, and alternatives for station design that can accommodate both 40-foot buses and 60-foot buses. This included gathering input from management of all Omnitrans departments as well as trainers and coach operators as to the operability of the design alternatives. As the project proceeds into the design phase, decisions will need to be made regarding the design of the dedicated bus lanes, stations, platform boarding height, right-side versus left-side boarding platforms, etc. Omnitrans continues to facilitate input from a cross-section of staff and management within Omnitrans and provide input to SBCTA staff and Parsons team.

**CONCLUSION**
Receive and forward to the Board of Directors a project update for the West Valley Connector project.

SUBJECT: INLAND EMPIRE ANNUAL SURVEY REPORT

FORM MOTION

Receive and forward to the Board of Directors this staff report on the findings from the Omnitrans portion of the Inland Empire Annual Survey conducted in spring 2019 by the Institute of Applied Research at California State University, San Bernardino (CSUSB).

BACKGROUND

For more than 20 years, the Institute of Applied Research at CSUSB has conducted a telephone survey of households in San Bernardino and Riverside Counties to capture residents’ opinions related to quality of life issues and measure how perceptions have changed over time. The Inland Empire Annual Survey also includes (on a space available basis) some proprietary questions designed to meet specific information needs of sponsoring agencies and organizations within the region. A combination of randomly selected land line and cell phone numbers were utilized to reach residents in 2019.

Omnitrans has participated as a sponsor of the Inland Empire Annual Survey multiple times since 2006. At a cost of $5,000, the survey provides a relatively low-cost opportunity for the Agency to scientifically gather opinions from the general public. Omnitrans questions are posed only to households located in the Omnitrans service area. In 2019, Agency questions were asked of 525 respondents, for a 95% level of confidence at an accuracy of approximately plus/minus 4.3%. There were 263 respondents from the East Valley region and 262 from the West Valley region.

Most Omnitrans questions remain the same each year to evaluate trends over time, while other questions are altered every few years to gain insight on particular topics. In 2019, survey questions focused on:

- Ability to name Omnitrans as the local bus service provider;
- Awareness of Omnitrans (if they were not able to name Omnitrans initially);
Committee Chair Penny Lilburn and Members of the Omnitrans Plans and Programs Committee
January 22, 2020 – Page 2

- Overall perception of Omnitrans even if the respondent has not used it personally;
- Usage of public transit for local travel; and
- Reason(s) people don’t regularly use public transportation

Results of the Inland Empire Annual Survey are utilized to accurately measure public awareness and public opinion ratings which are then incorporated into the Agency’s Annual Marketing Plan. In an effort to more fully inform the Board of Directors on survey findings and implications, this detailed report is provided.

Key findings from the 2019 Inland Empire Annual Survey:

Public Awareness
- 40.7% of respondents can name Omnitrans or an Omnitrans service as their local bus service provider. This represents Omnitrans’ “unaided awareness” percentage.
- Respondents who could not name Omnitrans as their service provider then were asked if they had heard of Omnitrans. 83% of these respondents said that they had heard of Omnitrans when prompted. This represents Omnitrans’ “aided awareness” percentage.
- Omnitrans’ combined aided and unaided awareness rating is 91%, which is unchanged from 2018.

Public Perception
- 83% of respondents gave Omnitrans a positive rating, which is down from 87% in 2018.
- All respondents were asked if their perception of Omnitrans had changed in the past year. 81.4% reported no change while 14.7% said perception improved and only 3% said it declined. It’s of note that approximately five times as many respondents stating that their opinion had improved vs. declined.

Riding Experience
- In a new question this year, all survey respondents were asked if they had ever used public transit for regular local travel (at least once per week).
- 15.3% of respondents have used public transit regularly. For purposes of context, a recent Pew Center report found that 9% of adults in the Western region of the United States regularly use public transit.
- Respondents who have not used public transit regularly were given five choices and asked the main reason why they don’t use public transit. The top two answers were: “Bus schedules don’t work for me,” (29%) and “Buses don’t go where I need to go,” (21%).

Survey results indicate that 8 out of 10 people living in the San Bernardino Valley are aware of Omnitrans and hold a positive opinion of the agency. To attract more people to use Omnitrans services, the agency should continue to assess routing and schedules for customer convenience and efficiency.
CONCLUSION

Findings from the Inland Empire Annual Survey conducted in spring 2019 by the Institute of Applied Research at CSUSB provide valuable public opinion data to the agency. Results will be incorporated into the 2020-2021 Annual Marketing Plan.

2019 Inland Empire Annual Survey Report

Plans and Programs Committee
January 22, 2020
Annual general public survey of San Bernardino County households

Omnitrans-related questions asked only in 525 service area households:

- Omnitrans name recognition and awareness
- Public perception of Omnitrans
- Community public transit experience
- Barriers to public transit use
What is the name of your local bus service provider?
• 40.7% name Omnitrans or agency service

Have you heard of Omnitrans (if not named)?
• 83% say ‘Yes’

Overall Awareness
• 91%
• unchanged from 2018
What is your overall perception of Omnitrans, even if you have never used it personally?

- 83% positive vs. 87% in 2018
Over the past year, has your perception of Omnitrans improved, declined, or stayed the same?

- **Unchanged**: 81%
- **Declined**: 3%
- **Improved**: 15%
A recent Pew Center report found that 9% of adults in the Western region of the United States regularly use public transit.

Have you ever used public transit for your local travel on a regular basis, meaning at least once a week?

- 15.3% Yes
- 84.7% No

NOTE:
New Question for 2019
Thank You

SUBJECT: ABBG CUSTOMER SATISFACTION SURVEY OF OMNITRANS

FORM MOTION

Receive and forward to the Board of Directors this a presentation highlighting the results of the American Bus Benchmarking Group (ABBG) Customer Satisfaction Survey of Omnitrans.

BACKGROUND

Omnitrans belongs to the American Bus Benchmarking Group (ABBG), which is a data and best practices sharing benchmarking network of twenty-two mid-sized bus operators in the U.S. ABBG is facilitated by the Railway and Transport Strategy Centre at Imperial College London.

A key component of the annual work plan for the ABBG is a joint Customer Satisfaction Survey, which has been completed during 2014, 2015, 2016, 2017, 2018 and 2019. During 2019, sixteen agencies participated in the survey which was conducted online via SurveyMonkey® during April and May of 2019.

Omnitrans riders contributed 987 responses to the survey out of 12,964 responses for the ABBG members in total. After scrubbing process, Omnitrans’ rider clean responses totaled 869 Since this survey was completed online and not truly from a random sample and hence subject to a sampling bias, a true error margin and confidence level cannot be established.

Omnitrans received an 83.0% overall satisfaction rating. This is effectively the same satisfaction rating compared to 82.9% received in 2018. The average satisfaction rating for all ABBG members in 2019 is 78.1%. Omnitrans held the 5th highest overall satisfaction score of ABBG member in 2019.

The survey as 20 questions in nine satisfaction areas. Omnitrans scored higher than peers on 11 of the 20 questions. Additionally, Omnitrans saw increases in eight satisfaction questions compared to our own score a year ago. Details on each question can be seen in Appendices 1 and 2 to this report, with further break down in the attached presentation.
The ABBG-facilitated Customer Satisfaction Survey is one tool that Omnitrans utilizes to gather customer feedback.

**CONCLUSION**

Receive and forward this staff report and presentation on the ABBG Customer Satisfaction Survey of Omnitrans.
