This Agreement is made and entered into as of this 1st day of May 2020, by and between Omnitrans (hereinafter referred to as "OMNITRANS") and Paint Body Vinyl & Graphics, Inc. (hereinafter referred to as "CONTRACTOR").

RECITALS

WHEREAS, OMNITRANS is a joint powers authority organized under Section 6500 et seq. of the California Government Code with power to contract for services described in Attachment A to this Agreement entitled “Attachment A, Scope of Work” (hereinafter referred to as “Work”);

WHEREAS, CONTRACTOR has indicated it is qualified to perform such services and (1) has reviewed all the available data furnished by OMNITRANS pertinent to the Work to be rendered; (2) has inspected and reviewed the Work to be rendered; (3) will exercise the ordinary care and skill expected of a practitioner in its profession; and (4) is willing to accept responsibility of performing the Work set forth in this Agreement for the compensation and in accordance with the terms, requirements and conditions herein specified;

NOW, THEREFORE, for the consideration hereinafter stated, the parties agree as follows:

1. SCOPE OF WORK
   
   A. CONTRACTOR will perform the Work and related tasks as described in Attachment A, Scope of Work hereto and is incorporated by reference into and made a part of this Agreement.

   B. This is a non-exclusive Agreement, whereby OMNITRANS may, at its sole discretion, augment or supplant the Work with its own forces or forces of another contractor or entity. CONTRACTOR will cooperate fully with OMNITRANS’ staff or other contractor or entity that may be providing similar or the same Work for OMNITRANS.

2. PERIOD OF PERFORMANCE

   The term of this Agreement shall be from the date of execution of this Agreement and continue in effect through April 30, 2023, unless terminated as specified in Section 10 and 11 of this Agreement. Omnitrans has no obligation to purchase any specified amount of products/services. All applicable indemnification provisions in this Agreement shall remain in effect following the termination of this Agreement.

   Omnitrans’ election to extend the Agreement beyond the Initial Term shall not diminish its right to terminate the Agreement for Omnitrans’ convenience or CONTRACTORS default as provided elsewhere in this Agreement.
3. **CONTRACT OPTIONS**

A. Omnitrans will have the unilateral right in the contract by which, for a specified time, Omnitrans may elect to purchase additional services called for by the contract, or may elect to extend the term of the contract. The requirements below apply:

   1) Any options that were requested by Omnitrans and/or contained in the Contractor’s PROPOSAL or offer must have been evaluated in making the contract award prior to exercising any such options.

   2) Since Contractor’s proposed pricing for the option years and additional services are considered in evaluating the Contractor’s original proposal and form the basis for awarding the contract, Contractor shall be bound by the proposal pricing for additional services and/or option years, unless otherwise provided herein.

B. Omnitrans will provide a minimum of thirty days (30) written notice to the Contractor of Omnitrans’ exercise of its option to extend the contract years. Omnitrans may give notice of its exercise of the option for additional services at any time during the term of the contract. The minimum time for the written notice may be waived by mutual agreement.

4. **COMPENSATION**

For CONTRACTOR’s full and complete performance of its obligations under this Agreement, OMNITRANS shall pay CONTRACTOR on a FIXED PRICE basis at the fully burdened fixed rates shown in Attachment C, and subject to the maximum cumulative payment obligation.

OMNITRANS’ maximum cumulative payment obligation under this Agreement shall not exceed One Hundred Forty Nine Thousand Dollars ($149,000.00), including all amounts payable to CONTRACTOR for all costs, including but not limited to direct labor, other direct costs, subcontracts, indirect costs including, but not limited to, leases, materials, taxes, insurance, and profit.

5. **INVOICING AND PAYMENT**

A. CONTRACTOR shall invoice OMNITRANS on a monthly basis no later than the 15th of each month. CONTRACTOR shall furnish information as may be requested by OMNITRANS to substantiate the validity of an invoice.

CONTRACTOR shall submit invoices in duplicate to:

OMNITRANS
1700 West Fifth Street
San Bernardino, CA 92411
Attn: Accounts Payable

Accountspayable@omnitrans.org
Contracts@omnitrans.org
A separate invoice shall be used for each shipment. Each invoice shall include, at minimum, the following information:

- Contract number
- Invoice number
- Description of delivery
- Delivery Date
- Information as requested by OMNITRANS

B. OMNITRANS shall remit payment within thirty (30) calendar days of approval of the invoices by OMNITRANS’ Project Manager.

In the event OMNITRANS should overpay CONTRACTOR, such overpayment shall not be construed as a waiver of OMNITRANS’ right to obtain reimbursement for the overpayment. Upon discovering any overpayment, either on its own or upon notice of OMNITRANS, CONTRACTOR shall immediately reimburse OMNITRANS the entire overpayment or, at its sole discretion, OMNITRANS may deduct such overpayment amount from monies due to CONTRACTOR under this Agreement or any other Agreement between OMNITRANS and CONTRACTOR.

C. Prompt Payment Clause

Omnitrans has, by a contract clause pursuant to 49 CFR 26.29; “Prompt Payment Mechanisms for Recipients”, adopted a prompt payment provision on all DOT-assisted contracts, to facilitate timely payment to all subcontractors. This provision, governing the payment to subcontractors (DBEs and non-DBEs), requires the Prime Contractor to issue payment to all subcontractors for satisfactory work performed, no later than seven (7) days from Contractor’s receipt of payment from Omnitrans. A provision will also apply to the disbursement of retention proceeds withheld by Prime Contractor, requiring the prompt return of retention payments from Contractor to the subcontractor no later than seven (7) days Omnitrans after the subcontractor’s work is satisfactorily completed. Prime Contractor will incorporate these prompt payment provisions in all subcontract agreements issued by Prime Contractor with respect to this Contract.

In accordance with §26.29 “Prompt Payment Provisions”, Omnitrans at its discretion, utilizes the following method to comply with the prompt payment of retainage requirement:

Hold retainage from the Prime Contractor and require a contract clause obligating Prime Contractor to make prompt and full payment of any retainage kept by Prime Contractor to the subcontractor within 7 days after the subcontractor’s work is satisfactorily completed.
Failure to comply with these prompt payment provisions or delay in issuing payment without prior written approval from Omnitrans will constitute noncompliance, which will result in the application of appropriate administrative sanctions, including, but not limited to, a penalty of 1% of the amount due per month to the affected subcontractor for every month that payment is not made.

Contractor will not be reimbursed for work performed by subcontractors unless and until the contractor ensures that the subcontractors are promptly paid for the work performed. Contractor shall include a prompt payment clause that complies with local, state, and federal prompt payment requirements in all subcontracts entered into under this contract. Should contractor fail to meet subcontractor prompt payment requirements for two (2) consecutive subcontractor payments without good cause, OMNITRANS may impose appropriate penalties for failure to comply with prompt payment requirements.

D. TITLE

a. Title shall pass to Omnitrans at the time of payment.

b. The title transferred as above shall in each case be good, and free and clear from any and all security interests, liens, and/or other encumbrances.

c. The transfer of title as specified above shall not imply Acceptance by Omnitrans, nor relieve the Contractor from the responsibility for strict compliance with the Contract, including warranty as specified in the Article entitled Warranty of Work, and for any loss of or damage to the Work.

d. The Contractor at its own expense shall promptly execute, acknowledge, and deliver to the Omnitrans proper bills of sale or other written instruments of title in a form as required by Omnitrans; said instruments shall convey to the Omnitrans’ title free and clear of debts, claims, liens, mortgages, taxes, and/or encumbrances.

e. Contractor shall have title to and bear the risk of any loss of or damage to Work purchased hereunder until they are delivered, unloaded, and received by Omnitrans at the FOB Destination specified herein. Contractor’s responsibility for loss or damage except for loss or damage resulting from Contractor’s negligence, shall cease when title passes to Omnitrans.
6. **AUDIT AND INSPECTION OF RECORDS**

CONTRACTOR agrees that OMNITRANS or any duly authorized representative shall have access to and the right to examine, audit, excerpt, copy or transcribe any pertinent transaction, activity, time cards, employment records or other records relating to this Agreement. Such material, including all pertinent cost, accounting, financial records, and proprietary data must be kept and maintained by CONTRACTOR for a period of three (3) years after completion of this Agreement unless OMNITRANS’ written permission is given to CONTRACTOR to dispose of material prior to this time.

Upon receipt of the notice of termination, CONTRACTOR shall immediately discontinue all Work affected and deliver all data, drawings, specifications, reports, estimates, summaries, and other information and materials accumulated in performing this Agreement, whether completed or in process, to Omnim's CEO/General Manager. OMNITRANS shall make an equitable adjustment in the Agreement for Work already performed, but shall not allow anticipated profit on unperformed services. Force Majeure shall apply.

11. TERMINATION FOR BREACH OF AGREEMENT

If CONTRACTOR does not cure such default or provide a plan to cure such default which is acceptable to OMNITRANS within the time permitted by OMNITRANS, then OMNITRANS may terminate this Agreement due to CONTRACTOR's breach of this Agreement.

B. If a federal or state proceeding for relief of debtors is undertaken by or against CONTRACTOR, or if CONTRACTOR makes an assignment for the benefit of creditors, then OMNITRANS may immediately terminate this Agreement.
C. If CONTRACTOR violates Section 29, Compliance with Lobbying Policies, of this Agreement, then OMNITRANS may immediately terminate this Agreement.

D. In the event OMNITRANS terminates this Agreement as provided in this Section, OMNITRANS may procure, upon such terms and in such manner as OMNITRANS may deem appropriate, work similar in scope and level of effort to those so terminated, and CONTRACTOR shall be liable to OMNITRANS for all of its costs and damages, including, but not limited, any excess costs for such Work.

E. All finished or unfinished documents and materials produced or procured under this Agreement shall become OMNITRANS’ property upon date of such termination.

F. If, after notice of termination of this Agreement under the provisions of this Section, it is determined for any reason that CONTRACTOR was not in default under the provisions of this Section, or that the default was excusable under the terms of this Agreement, the rights and obligations of the parties shall be the same as if the notice of termination had been issued pursuant to Section 10, Termination for Convenience.

DISADVANTAGED BUSINESS ENTERPRISE (DBE) 49 CFR Part 26

A. This contract is subject to Title 49, Code of Federal Regulations (CFR), Part 26, entitled “Participation by Disadvantaged Business Enterprises (DBE) in Department of Transportation Financial Assistance Programs (“Regulations”). The Regulations in their entirety are incorporated herein by this reference. Omnitrans has established a Race Neutral Federal Transportation Administration (FTA) DBE program. It is the policy of Omnitrans to ensure non-discrimination in the award and administration of all contracts and to create a level playing field on which DBEs can compete fairly for contracts and subcontracts. Omnitrans highly encourages the participation of DBE contractors and the utilization of DBE subcontractors in this project. There is no contract DBE goal on this project, however, Omnitrans has an overall agency DBE goal of 6.1% and any DBEs on this project will be used to satisfy the overall agency DBE goal. CONTRACTOR must comply with DBE regulations (49 CFR Part 26) in the execution of this contract. Key DBE provisions have been included in Attachment G – DBE Requirements, and include assurance of nondiscrimination, prompt payment, and reporting requirements.

B. Contractor shall not discriminate on the basis of race, color, national origin, or sex in the performance of this contract. Contractor shall carry out applicable requirements of 49 CFR Part 26 in the award and administration of this DOT-assisted Contract. Failure by Contractor to carry out these requirements is a material breach of this Contract, which may result in the termination of this Contract or such other remedy as Omnitrans deems appropriate. Each subcontract Contractor signs with a subcontractor must include the assurance in this paragraph (see 49 CFR 26.13(b)).

C. Contractor shall report subcontractor awards and payments via a Web-based system on a monthly basis unless Omnitrans approves in writing the use of a Subcontractors Paid Report and Payment Verification form.
D. Contractor is required to pay its subcontractors performing work related to this contract for satisfactory performance of that work no later than 7 days after the contractor’s receipt of payment for that work from the Omnitrans. In addition, Contractor is required to return any retainage payments to those subcontractors within 30 days after the subcontractor’s work related to his contract is satisfactorily completed.

E. Contractor must promptly notify Omnitrans whenever a DBE subcontractor performing work related to this contract is terminated or fails to complete its work, and must make good faith efforts to engage another DBE subcontractor to perform at least the same value of work remaining to meet the original DBE subcontractor’s award amount. Contractor may not terminate any DBE subcontractor and perform that work through its own forces or those of an affiliate without prior written consent of Omnitrans.

TERMINATION 49 U.S.C. Part 18 FTA Circular 4220.1F

**Applicability to Contracts**
All contracts (with the exception of contracts with nonprofit organizations and institutions of higher education,) in excess of $10,000 shall contain suitable provisions for termination by the grantee including the manner by which it will be affected and the basis for settlement. (For contracts with nonprofit organizations and institutions of higher education the threshold is $100,000.) In addition, such contracts shall describe conditions under which the contract may be terminated for default as well as conditions where the contract may be terminated because of circumstances beyond the control of the contractor.

**Flow Down**
The termination requirements flow down to all contracts in excess of $10,000, with the exception of contracts with nonprofit organizations and institutions of higher learning.

A. **Termination for Convenience (General Provision)** Omnitrans may terminate this contract, in whole or in part, at any time by written notice to the Contractor when it is in the Government's best interest. The Contractor shall be paid its costs, including contract close-out costs, and profit on work performed up to the time of termination. The Contractor shall promptly submit its termination claim to Omnitrans to be paid the Contractor. If the Contractor has any property in its possession belonging to the Omnitrans, the Contractor will account for the same, and dispose of it in the manner the Omnitrans directs.

B. **Opportunity to Cure (General Provision)** Omnitrans in its sole discretion may, in the case of a termination for breach or default, allow the Contractor an appropriately short period of time in which to cure the defect. In such case, the notice of termination will state the time period in which cure is permitted and other appropriate conditions

If Contractor fails to remedy to Omnitrans’ satisfaction the breach or default of any of the terms, covenants, or conditions of this Contract within ten (10) days after receipt by Contractor of written notice from Omnitrans setting forth the nature of said breach or default, Omnitrans shall have the right to terminate the Contract without any further obligation to Contractor. Any such termination for default shall not in any way operate to
preclude Omnitrans from also pursuing all available remedies against Contractor and its sureties for said breach or default.

C. **Waiver of Remedies** for any Breach In the event that Omnitrans elects to waive its remedies for any breach by Contractor of any covenant, term or condition of this Contract, such waiver by Omnitrans shall not limit Omnitrans remedies for any succeeding breach of that or of any other term, covenant, or condition of this Contract.

D. **Termination for Default (Construction)** If the Contractor refuses or fails to prosecute the work or any separable part, with the diligence that will insure its completion within the time specified in this contract or any extension or fails to complete the work within this time, or if the Contractor fails to comply with any other provisions of this contract, Omnitrans may terminate this contract for default. Omnitrans shall terminate by delivering to the Contractor a Notice of Termination specifying the nature of the default. In this event, Omnitrans may take over the work and compete it by contract or otherwise, and may take possession of and use any materials, appliances, and plant on the work site necessary for completing the work. The Contractor and its sureties shall be liable for any damage to Omnitrans resulting from the Contractor's refusal or failure to complete the work within specified time, whether or not the Contractor's right to proceed with the work is terminated. This liability includes any increased costs incurred by the Omnitrans in completing the work.

The Contractor's right to proceed shall not be terminated nor the Contractor charged with damages under this clause if-

1. The delay in completing the work arises from unforeseeable causes beyond the control and without the fault or negligence of the Contractor. Examples of such causes include: acts of God, acts of the Recipient, acts of another Contractor in the performance of a contract with the Recipient, epidemics, quarantine restrictions, strikes, freight embargoes; and

2. The contractor, within [10] days from the beginning of any delay, notifies Omnitrans in writing of the causes of delay. If in the judgment of Omnitrans, the delay is excusable, the time for completing the work shall be extended. The judgment of Omnitrans shall be final and conclusive on the parties, but subject to appeal under the Disputes clauses.

If, after termination of the Contractor's right to proceed, it is determined that the Contractor was not in default, or that the delay was excusable, the rights and obligations of the parties will be the same as if the termination had been issued for the convenience of Omnitrans.

I. Purpose
It is the policy of Omnitrans to maintain a work environment that is safe for all persons, including the community, and conducive to attaining high work standards. To achieve these objectives, the Agency prohibits the possession of firearms and weapons in the work place, regardless of any license or permit that an individual may have which otherwise authorizes the individual to carry firearms or weapons.

It is illegal and a criminal violation to possess weapons in public buildings (California Penal Code 171b and 171.7).

II. Scope
This policy applies to all Omnitrans employees, including but not limited to staffing agency workers and contractors working for or with the Agency at any time, regardless of whether the Agency is the actual employer.

Possession of firearms and weapons is prohibited at all Omnitrans’ offices, parking lots, agency vehicles and job sites, and in all Agency vehicles.

The following person/s are exempt from this policy as stated: a guard of a contract carrier operating an armored vehicle, and any law enforcement officer who is carrying out official duties engaged in protecting and preserving property or life within the scope of his or her employment.

Omnitrans will strictly enforce this policy. Violation of this policy will result in immediate disciplinary action, up to and including termination.

III. Procedure
A. COMMUNICATION OF POLICY

(a) Each employee of the Agency shall receive a copy of this policy at the time of his/her hire and shall sign a copy of the acknowledgment. Employees who were employed before the effective date of this policy shall also receive a copy of this policy and shall sign a copy of the acknowledgment. A copy of the signed acknowledgment and of all new and revised policies throughout the employee’s employment shall be maintained in each employee’s personnel file.

(b) A copy of this policy shall be attached to each contractor’s contract, and shall become a part of its contract. The contractor shall be responsible for communicating this policy to its employees and any subcontractors to which the contractor sublets any portion of its contract.
B. PROHIBITED CONDUCT

(a) The transportation of firearms or weapons in Agency vehicles is prohibited. This includes but is not limited to:
   (1) to and from work,
   (2) when conducting Agency business,
   (3) at all times in Agency-owned or leased vehicles.

(b) The possession or carrying of permitted and non-permitted firearms or weapons while at Agency buildings, parking lots, sponsored events, and job sites.

C. SEARCH

(a) OmniTrans reserves the right to conduct reasonable, unannounced searches of Agency premises and personal searches of employees and others while entering, on, or leaving Agency premises, including, but not limited to, personal effects, vehicles, lockers, desks, tool boxes, clothing, meal containers, and baggage. Searches will be conducted when the Agency has a reasonable suspicion to believe that a particular employee may be in possession of a weapon or firearm.

(b) “Reasonable suspicion” is defined as a suspicion that is based on specific personal observations such as an employee’s manner, disposition, behavior, speech, information provided to management by an employee, by law enforcement officials, by a security service, or by other persons believed to be reliable, or a suspicion that is based on other surrounding circumstances.

(c) Individuals refusing to allow an inspection will not be detained or forced to submit to the inspection. Refusal violates Agency policy and constitutes an act of insubordination constituting disciplinary action, up to and including separation of the employment relationship. Non-employees who refuse to allow an inspection will not be permitted on Agency premises and will be required to immediately leave the premises. Employees will be relieved of all duties while pending investigation.

D. DISCIPLINE

(a) Violations of any portion of this policy will subject the employee to discipline,
up to and including separation of employment.

(b) Violations by a contractor’s employee or subcontractor of any portion of this policy may constitute a breach of contract and regardless will mandate the immediate removal of the contractor’s employee from Agency premises, prohibition against the individual accessing Agency premises in the future, and may also constitute a breach of contract.

E. REPORT OF VIOLATIONS

1. Employee Violations

Employees are required to report violations of this policy without regard to the relationship between the individual who initiates the prohibited behavior and the individual reporting it. An employee who believes that another employee may be in violation of this policy must report the alleged violation to the employee’s manager or supervisor, the department director, security, or the appropriate departmental Human Resources representative.

Departments are responsible for implementing this policy. The Agency will promptly investigate allegations of violations of this policy.

Omnitrans reserves the right to authorize searches for prohibited weapons on its property when a violation is reported or when probable cause or reasonable suspicion is present consistent with law.

Employees should be aware that there is no reasonable expectation of privacy with respect to weapons in the workplace. The Agency’s right to conduct searches includes, but is not limited to, such areas and items as lockers, desks, workstations, offices, purses, briefcases, bags, toolboxes, and lunch bags.

Searches of the employee’s work area and belongings, as described above, may be conducted by the Security & Emergency Preparedness Coordinator, or designee. Searches of all types, including surrounding agency property, personal property and the employee may be conducted by law enforcement in accordance with law should reasonable suspicion be present. Any weapon found in violation of this policy may be confiscated. Refusal to permit a search may result in discipline, up to and including separation.

2. Visitor Violations

TRANSITMASTER™ UPGRADE STATEMENT OF WORK

General Description of Project:

This Statement of Work ("SOW") describes tasks to be performed by Trapeze Software Group, Inc. (Trapeze) for the TransitMaster™ ("TM") Fixed Side (Dispatch) software upgrade for the Omnitrans TM system. Tasks involve the backup of the existing TM software version and associated databases, the installation of the upgraded TM software, the upgrade of individual dispatch workstations and operational state verification of the upgraded TM software.

Trapeze’s Responsibilities:

Trapeze will coordinate with OMNITRANS to ensure the accessibility to the dispatch center and all server rooms, towers, garages and associated facilities as is necessary until project completion. Trapeze will provide one (1) project engineer to be on-site for up to but not to exceed four (4) days for customer testing and cut over and provide up to but not exceed three (3) days for new feature training.

Trapeze will provide one (1) trainer to be on-site for up to but not exceed three (3) days of on-site training as described in the Training section.

Trapeze shall have the authority over the installation of all equipment and systems. All communications regarding the upgrade, approval of work and workmanship should flow through Trapeze representatives on-site.

Omnitrans Responsibilities:

OMNITRANS will be required to provide Trapeze access to all workplaces necessary to perform all installation of the required TM software. The necessary requirements OMNITRANS must deploy to meet all mandatory obligations follows (if applicable):

- Access to a secure and locked storage facility available for access by Trapeze personnel. This would only be required if hardware is involved as part of the upgrade. If the upgrade is software only, then a locked storage facility would not be needed.
- Parking access near the installation area for a service vehicle for the transport of personnel, materials and tools by Trapeze.
- Identification badges for all Trapeze personnel working at each installation site.
- Authorized personnel to coordinate and support acceptance testing with Trapeze personnel.
- Remote dial in VPN connection required for factory technician support.
- Provisioning of virtual machines in existing VMware environment for production and testing systems.
- Affected Software:
  - Base TransitMaster™ control center software
  - GIS and survey tools
  - Fixed route scheduling system interface
  - Base TransitMaster™ communications software including TDMA communications subsystem
  - Datamart™
Any other TransitMaster™ licensed interfaces

- Licensing
  - The current license count from the original contract and any purchased changes prior to the upgrade will apply to the upgraded TransitMaster™ software system.

- Operating System
  - The TransitMaster™ software version will be upgraded to version requested.
    - Note: Minimum operating system and SQL Server version requirements are subject to change with newer versions of TransitMaster™. Trapeze will notify OMNITRANS of any changes to the minimum requirements during the planning phase of future upgrades. It is the responsibility of OMNITRANS to upgrade the operating systems prior to the TransitMaster™ software upgrade.
    - Note: It is expected that operating system upgrades and SQL Server upgrades will be coordinated between Trapeze and OMNITRANS as part of the upgrade schedule.

**Software Upgrade high level Phases:**

*Notice to proceed (NTP) & Operational overview*

Discuss and define upgrade schedule and review client’s TransitMaster™ ITS operations in terms of Network, Vehicle, and System features (fixed and any non-revenue applications if needed). This phase will be with customer involvement.

*Deployment Testing*

Create testing environment within the Trapeze ITS deployment lab that simulates the client’s ITS environment. Obtain current backup of client’s TransitMaster™ databases and convert to upgrade version. This phase is an internal check of client’s ITS system to validate upgrade stability and integration to existing software and hardware interfaces.

*On-Site Work Plan and actual upgrade*

These activities involve transition from the production databases to the new converted upgrade system version. Many critical activities are completed during this phase:

- Transition server data (database conversion) to new version, including Application and DataMart servers
- Mobile software preparation and vehicle configuration
- Signup import & merge
- Create & stage Route files
- Replication set-up (if applicable)
- Upgrade dispatch workstations for both fixed route and non-revenue (if needed)
- Validate FTP service
- Validate functionality
• Validate error logs

A detailed plan will be delivered to client for approval and consideration of client resources needed to carry out these upgrade activities, as well as operational expectations during on-site work.

Post upgrade support

The objective on this final phase is to continue validating upgrade activities and assure system stability and functionality over time. Some of the activities addressed are new feature training activities, issues resolution, and general support.

Project Management Work Plan:

Trapeze shall provide project management support for the duration of this project phase. The Trapeze project manager will be responsible for ensuring that project requirements are communicated and understood and milestones are met. The project manager will be the key point of contact for OMNITRANS during the project. We request that OMNITRANS also assign a project manager. The two project managers will work together to ensure that regular dialogue is maintained through an established channel.

The Trapeze project manager shall provide the following key services:

- **Scope Management.** The project manager is the link between the client’s requirements, the contract/agreement, the deliverable specifications and the project’s scope of work. The project manager is critical to defining and documenting the tasks and deliverables necessary to complete the project. The project manager ensures that the project’s resources remain focused on the project objectives.

- **Integration Management.** While subject matter experts may be brought onto the project for specific purposes, the project manager understands the project as a whole and ensures that project deliverables are achieved in the right sequence and at the right time. The master project schedule is an output of Integration Management.

- **Communication Management.** The project manager is essential to the effective flow of information throughout the project. As the accumulator, archiver and librarian of the project records, the project manager is also responsible for ensuring that information is distributed to the appropriate individuals in a timely manner. Examples of communication management include issue lists, weekly progress reporting, scheduled weekly teleconferences, and contract administration.

- **Resource Management.** The project manager ensures that the most appropriate Trapeze resources are allocated to the project at the correct time. The Trapeze project manager also specifies what kinds of project resources are required from the client and when they are needed.

Project Plan Delivery:

The Trapeze Transit System Specialist is responsible for managing scope, cost, schedule, communications, human resources, integration, risk, quality, change orders and procurement. This approach has proven to be successful when managing complex ITS System deployments.
Trapeze understands project success is measured by the thorough integration into the existing OMNITRANS ITS system and that success can only be realized with a sound management approach and business style from Trapeze. Trapeze tailors an implementation solution to meet the customer's specific needs as presented in this delivery proposal. Communication with the right decision makers and receiving accurate and consistent feedback will promote success and customer satisfaction with this implementation objective. The following strategic overview provides a description of the phases for this project.

**Project Delivery meets Project Standards:**

Already in the Project Management overview we have described a number of quality assurance processes that proactively and positively assist ensuring that the project remains soundly managed and on schedule.

The Project Management overview includes a detailed description of the Project Standard that we follow. One of the key aspects of this model is the quality gate process which, for critical phases, ensures the phase is not only completed but that all the relevant quality processes and documentation has been produced and approved for each of the following project phases:

**Project Phases:**

Project phases and quality assurance are jointly accomplished through project processes and documentation. Following are the critical phases to the vehicle hardware and system software upgrades:

- Project Initiation & System Surveys
- System Installation & Deployment
- Availability Test and Project Closure

**Project Initiation & System Review**

Upon award and notice to proceed (NTP), Trapeze will work with your project team to accomplish a number of necessary elements required immediately after NTP.

Initially Trapeze produces the project plan and detailed project schedule. These will be in review with OMNITRANS during the kickof. Project teams from both Trapeze and OMNITRANS should attend the project kickoff meeting. A project kickoff meeting will be held so that the technical experts from each side can commence the design activities.

Trapeze core team staff will work together with OMNITRANS core team to complete and approve the project plan and detailed project schedule. The key planning assumptions need to be discussed and agreed. These include the following:

- Work Plan and Schedule
- Proposed Cutover-Phasing Plan for the fixed side system elements
- Network review, operational review – particularly back office applications and their integration with the existing ITS system.
Trapeze's network and project engineering personnel schedule onsite visits to perform surveys, preferably during the Kick-Off meeting. The review process will provide OMNITRANS staff and Trapeze engineering personnel the opportunity to review required infrastructure design supporting the new system. The Trapeze team will work with OMNITRANS at each stage of the project to confirm all members of OMNITRANS team are given the opportunity to fully participate in the decision making process.

**System Installation and Deployment**

System Integration Test phase shall be conducted using approved vehicles on the OMNITRANS network. Trapeze suggests a field performance test on a pilot fleet of vehicles. This pilot shall test all operational and performance parameters of the system, and shall be conducted for a set, mutually agreed upon time span.

The pilot test demonstrates complete system functionality – with the implementation of the upgraded system in a production environment. The test confirms system operation by checking all of the required functions and features of TransitMaster™ and all applicable integrated Trapeze back office applications. Trapeze and OMNITRANS will mutually agree on the pilot test plan and procedures. The existing, mutually understood, onsite ITS system infrastructure shall be used for the operational pilot, checking all of the functions and requirements of the software. Trapeze will complete the pilot test after successful completion and acceptance of the system design.

**Availability Test and Project Closure**

During this phase of the project, OMNITRANS - with Trapeze personnel support - exercise the TransitMaster™ ITS system for a period of days and note system performance. It is the responsibility of Trapeze to support when requested, and resolve quickly any issues that may occur during this period. It is understood at this time, Trapeze Customer Care will transition to providing ongoing system and application support according to existing maintenance and warranty programs with OMNITRANS.

Following successful completion of the availability test, final documentation is prepared and delivered. OMNITRANS will be responsible for reviewing the documentation. Once the documentation is reviewed and approved, Trapeze will present the project phase closure letter to OMNITRANS for signature.

**Training**

It is important that your system administrator and maintenance staff be trained and familiar with the new equipment and application features installed and the functionality they provides. Training shall be conducted so that OMNITRANS staff is well equipped to troubleshoot and maintain the new system after integration into production.

Major areas of instruction will include:
- System configuration and operational review
- Network configuration
- TransitMaster™ TIS Manager and central system configuration
Therefore, Trapeze shall provide scheduled training for the infrastructure and ITS system just prior to, and concurrent, with commissioning of new vehicle hardware. This priority will allow OMNITRANS organization staff an amount of time to become familiar with the system and at the same time put this knowledge to immediate use. Using this method, the learning experience of your support staff can be closely timed with the implementation of the system.

This course introduces the student to the advanced tools and topics related to the TransitMaster™ Intelligent Transportation System (ITS). The focus of this course is to provide the student with information on the day-to-day maintenance and monitoring of the system, with an in-depth study of the applications used to perform those tasks.

**General Objectives:**
- Review and gain an advanced understanding of the TransitMaster™ applications and services that are used to configure, maintain, and troubleshoot the system.
- Use the appropriate applications to monitor and maintain the TransitMaster™ radio and computer network.
- Use the appropriate software applications to monitor and maintain the data stored in the TransitMaster™ database

**Format:** Combination of classroom lecture, discussion, and hands-on exercises

**Duration:** 3 Days

Training sessions start at 8:00 AM and end at 5:00 PM each day unless other arrangements are made with the instructor. One-half hour preparation and tear-down time is required by instructor and is included as part of the training session.

**Prerequisites:**
- Completion of TM601: System Administration I or equivalent experience
- Working knowledge of computer and Windows™ Operating Systems
- Working knowledge of computer networks and communication methods
- Working knowledge of schedule and route data

**Who should attend:**
- Computer Network Administrators, System Administrators, Database Analysts, Schedulers

**Student Capacity:** 1-2 students per computer workstation
- Recommended maximum is 6 students

20) PATENT, PROPRIETARY RIGHTS, COPYRIGHT AND TRADEMARK INDEMNITY. Seller shall retain all rights in patents, copyrights, trademarks, and trade secrets. Furthermore, neither this Agreement nor the delivery of any work hereunder shall be construed as granting, either by estoppel or otherwise, any right in, or license under, any present or future data, drawings, plans, ideas or methods disclosed in this Agreement or under any invention, patent, copyright or trade secret now or hereafter owned or controlled by Seller. If, in any such suit so defended, the product is held to constitute an infringement and its use is enjoined, or if in the light of any claim of infringement Seller deems it advisable to do so, Seller
may either procure the right to continue the use of the same for Buyer, or replace the same with a non-infringing product, or modify said product so as to be non-infringing, or, if the foregoing options are not reasonably available, take back the infringing product and refund the purchase price less a reasonable allowance for use, damage or obsolescence.

THE FOREGOING STATES THE SOLE AND EXCLUSIVE LIABILITY OF THE PARTIES HERETO FOR PATENT AND/OR COPYRIGHT INFRINGEMENT.

21) FORCE MAJEURE. Seller shall not be liable to Buyer for failure to meet any obligations under this Agreement if such failure is caused by or due to events beyond the control of Seller such as, but not limited to, acts of God, acts of war (whether declared or undeclared), riot, rebellion, sabotage, weather, fire, flood, drought, terrorism, earthquake, windstorm, explosion, strikes or other labor troubles preventing delivery hereunder, embargo, delays, acts of government or government priorities, regulations or rules, court orders, or any other causes not due to the sole fault or negligence of Seller.

22) CONFIDENTIALITY. Buyer further agrees to keep in absolute confidence all data relative to the business of Seller, Buyer, their agents or assigns. No news release, including but not limited to photographs and film, public announcement, denial or confirmation of any part of the subject matter of any phase of any program hereunder shall be made by Buyer without prior written approval of Seller.

24) DISPUTES. The parties shall attempt to resolve any dispute arising out of or relating to this Agreement promptly by negotiation in good faith between executives who have the authority to settle the dispute. Either party shall give the other party written notice of any dispute not resolved in the ordinary course of business. Within seven (7) business days after delivery of such notice, the party receiving notice shall submit to the other a written response thereto.

All reasonable requests for information made by one party to any other shall be honored in a timely fashion. All negotiations conducted pursuant to this Article (and any of the parties’ submissions in contemplation hereof) shall be kept confidential by the parties and shall be treated by the parties and their representatives as compromise and settlement negotiations under the Federal Rules of Evidence and any similar state rules.

If the matter in dispute has not been resolved within thirty (30) calendar days of the initial dispute date, either party (the "Claimant") may submit the dispute to binding arbitration to the State of Delaware office of the American Arbitration Association ("AAA") in accordance with the procedures set forth in the Commercial Arbitration Rules of the AAA then obtaining.

The Commercial Arbitration Rules of the AAA shall govern any arbitration proceeding hereunder. The arbitration shall be conducted by three (3) commercially-experienced arbitrators selected pursuant to the Commercial Arbitration Rules, and pre-hearing discovery shall be permitted if and only to the extent determined by the arbitrators to be necessary in order to effectuate resolution of the matter in dispute. Any provisions of the award which are determined to be unenforceable in any jurisdiction, shall as to such jurisdiction, be ineffective to the extent of such prohibition or unenforceability, without invalidating the remaining provisions hereof. The arbitrators’ decision shall be rendered within thirty (30) days of the conclusion of any hearing hereunder and the arbitrators’ judgment shall be final and binding on the parties. Any award and judgment may be entered and enforced in any court of competent jurisdiction.

Resolution of disputes under the procedures of this Article shall be the sole and exclusive means of resolving disputes arising out of or relating to this Agreement.

The terms and provisions stated herein and within Attachments A, B, C, and D comprise all the terms, conditions, and agreements of the parties with respect to the Equipment and Software maintenance provided hereunder and supersede any provision on the face and reverse side of the Buyer’s purchase order or any prior agreement inconsistent with the provisions hereof. No other terms, conditions, representations, warranties or guarantees, whether written or oral, express or implied, shall form a part hereof or have any legal effect whatsoever. No modification hereof shall be valid unless in writing and duly signed by Buyer’s and Seller’s authorized representatives.

26) TRADE SECRETS. Buyer acknowledges that all Trade Secrets relating to or concerning the TransitMaster™ system, including any modifications made thereto, are owned by Seller or Seller has the applicable rights of use and Buyer will maintain the Trade Secrets in strict confidence and not disclose the Trade Secrets to any third party without Seller’s prior written consent. Buyer shall prohibit any persons other than Buyer employees from using any components of the TransitMaster™ system and Buyer shall restrict the disclosure and dissemination of all Trade Secrets reflected in the TransitMaster™ system to Buyer employees who are bound to respect the confidentiality of such Trade Secrets. These obligations of confidentiality will survive termination of this Agreement.

27) MEDIA AND PUBLICATION. Upon reasonable notice and consultation with the Buyer, Seller shall be entitled to publish press releases and other general marketing information related to this Agreement and the work done hereunder. Except for the foregoing, and subject to the strict requirements of the law, neither party will communicate with representatives of the general or technical press, radio, television, or other communication media regarding the work performed under this Agreement without the prior written consent of the other party, which shall not be unreasonably withheld.

28) DATA/DATABASE OWNERSHIP. The license to use the Seller’s TransitMaster™ database is granted to Buyer solely for the development of internal reports by Buyer and for the integrated operation of Trapeze Equipment and Trapeze Software components. Unless expressly included herein, all other access rights to the Seller’s TransitMaster™ database are excluded from this Agreement, and the Buyer shall not develop or use, or authorize the development or use of, any other application interfaces to or from the Seller’s TransitMaster™ database.
However, Buyer shall retain ownership of the raw data that is inputted into the Seller’s TransitMaster™ database.

29) ASSIGNMENT. This Agreement shall be binding upon the parties, their successors, and assignees; provided, however, that neither party shall assign any rights or obligations under this Agreement without the written consent of the other, which shall not be unreasonably withheld, except that Seller may assign this Agreement without consent to any subsidiary or affiliated company or by way of merger or acquisition.
