BOARDING WITH A BICYCLE

Regular Omnitrans buses are equipped with a bike rack on the front bumper that can hold two or three bikes. Bike racks can be used free of charge. Tire size must be at least 20" in diameter, which excludes most children's bikes and motorized scooters. Children under age 14 can only use the racks if accompanied by a bus-riding adult. Omnitrans is not responsible for lost, stolen or damaged bikes. Owners assume all risk for transported bikes and are responsible for loading and unloading bikes. Bikes are not allowed inside regular buses. For safety reasons, your driver is not allowed to help load or unload your bike.

Bike Loading and Unloading Steps:

1. Have your bike at the curb ready to load. Signal to your driver. **Wait for the bus to come to a complete stop** and then tell your driver you will be loading a bike.

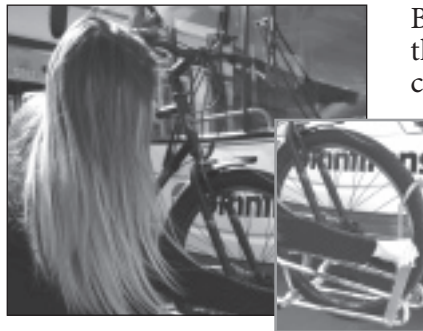

2. Go to the front of the bus and lower the bike rack from the folded position.

3. Secure your bike by either:

A) Raising the support arm over the front tire, or

B) Turning the hand crank counter-clockwise to position the support arm over the front tire.

4. Before exiting, tell your driver you want to unload your bicycle. To unload, pull the support arm out and down over the front tire, lift your bike onto the curb, fold the rack up to the locked position, step away from the bus and signal the driver when you are finished.

sbX Bike Loading

1. Board your bike using the door closest to the rear of the vehicle. Look for the  symbol on the doors.

2. Place bike in racks located inside the bike storage area. Wedge the rear tire between the metal bars.

3. Secure bike by pulling the lever bar up and over the rear tire. Attach velcro straps for added support in the center of the bike.

ASCENSO AL AUTOBÚS CON SU BICICLETA

Los autobuses regulares de Omnitrans están equipados con un portabicicletas en el parachoques delantero con capacidad para dos o tres bicicletas. Los portabicicletas se pueden usar sin cargo. El neumático tiene que tener un diámetro de al menos 20", lo cual excluye a la mayoría de las bicicletas para niños y los scooters a motor. Los niños menores de 14 años sólo pueden usar el portabicicletas si están acompañados por un pasajero adulto. Omnitrans no se hace responsable por las bicicletas perdidas, robadas o dañadas. Los dueños asumen todo el riesgo por las bicicletas transportadas y son responsables de subir y bajar las bicicletas. No se permiten las bicicletas dentro de los autobuses regulares. Por razones de seguridad, su conductor no tiene permitido ayudarlo a subir o bajar su bicicleta.

Pasos para subir y bajar bicicletas en el autobús:

1. Coloque su bicicleta en el bordillo lista para ser subida. Hágale señas a su conductor. Espere hasta que el autobús se detenga completamente y luego dígame a su conductor que subirá una bicicleta.

2. Diríjase al frente del autobús y despliegue el portabicicletas.

3. Asegure su bicicleta:

A) levantando el brazo de soporte sobre la llanta delantero, o

B) girando la manivela en sentido contrario para colocar el brazo de soporte sobre la llanta delantera.

4. Antes de salir, dígame al conductor que desea descargar su bicicleta. Para bajarla, jale el brazo de soporte hacia afuera y hacia abajo sobre la llanta delantera, levante la bicicleta hacia la acera, levante el estante hasta la posición bloqueada, aléjese del autobús y señale al conductor cuando haya terminado.

Cómo subir una bicicleta a un sbX

1. Suba su bicicleta usando la puerta más cercana a la parte trasera del vehículo. Busque el símbolo en las puertas.

2. Coloque la bicicleta en los bastidores ubicados dentro del área de bicicletas. Cuña el neumático trasero entre las barras de metal. Asegure la bicicleta usando las barras de bloqueo fijadas a la baranda metálica en la parte inferior de los bastidores.

3. Asegure la bicicleta jalando la palanca sobre la llanta trasera. Fije las correas de velcro para soporte adicional en el centro de la bicicleta.

USING THE MOBILITY DEVICE LIFT/RAMP

Omnitrans buses are equipped with ramps to board passengers with wheelchair and other mobility devices. OmniGo and Access vehicles have lifts. Omnitrans buses can also “kneel” on request for easier boarding by orthopedically-challenged riders.

BOARDING

- Wait at the bus stop and indicate to the driver that you need to use the lift/ramp. The ramp is located at the front of the bus; just look for the wheelchair symbol on the bus door.
- Position yourself to be in the clear as it deploys. Your coach operator will let you know when it's safe to move on to the ramp.
- Wait for the driver to tell you to move on to the lift/ramp platform. If you are using the lift, set the brake on your wheelchair or mobility device once you have boarded; if you are standing, hold onto the handrails for support.
- When you're all set, pay your fare and give your coach operator your destination. This will help to ensure that the bus is positioned correctly at the stop, so that you can conveniently exit the bus.

WHO MAY NOT USE THE RAMP?

- Riders with retail shopping carts, wagons or regular baby strollers.

Drivers will make every attempt to accommodate the rider's mobility device. The mobility device must safely fit onto the lift platform and the lift must be able to safely raise the mobility device and its occupant. Service can be refused if the mobility device and its occupant cannot safely utilize the lift to board the vehicle. **In accordance with the Code of Federal Regulation 49, Subpart G, 37.165 (c) 1.3, your coach operator will secure your mobility device with clamps or straps that are stored on all buses. Coach Operators will decline to provide service to a rider who refuses to allow his or her mobility device to be secured.**

EXITING

- When the bus stops, please be patient as your coach operator allows other customers to exit the bus. Your mobility device will be released from its safety clamp/belts before other passengers are allowed to board.
- When exiting, wait until the lift/ramp has reached the ground and if using OmniGo or Access, wait until the safety barrier has dropped before moving off the platform.

sbX

sbX stations offer level boarding with bridge plates to span the gap between platform and vehicle. There are two wheelchair securement locations per bus, each equipped with devices which hold the wheelchairs safely in place. Operators provide securement assistance as needed. Lap/shoulder belts are available upon request.

SERVICE ANIMALS

Designated service animals are welcome to ride the bus free of charge. Please note that your driver may ask if your animal is a service animal, and what tasks the animal has been trained to perform. You also may be asked to remove your service animal from the bus if 1) the animal's behavior is out of control, and you do not take effective action to control it; or 2) the animal poses a direct threat to the health or safety of others. Pets may only ride the bus if they are in a secure pet carrier that fits on your lap. Animals are not allowed to ride on seats.

TITLE VI OF THE CIVIL RIGHTS ACT OF 1964

In accordance with Title VI Civil Rights Act of 1964, Omnitrans prohibits discrimination on the basis of race, color, and national origin in programs and activities receiving federal financial assistance. For more information about Omnitrans' Title VI program, complaint procedure or to notify Omnitrans of any perceived violation of the act, please contact Omnitrans Information at (800) 966-6428; Omnitrans Title VI, 1700 W. 5th St. San Bernardino, CA 92411 or visit www.omnitrans.org/about/TitleVI

CÓMO USAR EL ELEVADOR/RAMPA DE DISPOSITIVOS DE MOVILIDAD

Los autobuses de Omnitrans están equipados con elevadores o rampas para subir a los pasajeros con sillas de ruedas y otros dispositivos de movilidad; los autobuses de Omnitrans también pueden “agacharse” si el pasajero lo solicita, para facilitar el ascenso de los pasajeros con impedimentos ortopédicos. Vehículos OmniGo y Access tienen ascensores.

AL BORDAR

- Espere en la parada del autobús e indíquele al conductor que gusta usar el elevador/la rampa. La rampa se encuentra en la parte delantera del autobús; simplemente busque el símbolo de la silla de ruedas en la puerta del autobús.
- Ubíquese en el claro mientras se despliega la rampa. Su conductor le indicará cuando sea seguro moverse hacia la rampa.
- Cuando esté listo, pague su tarifa y dígame su destino al conductor. Si está utilizando el ascensor, ponga el freno en su silla de ruedas o dispositivo de movilidad una vez que haya abordado; si usted está de pie, agarresa de las barandillas de apoyo.

¿QUIÉN NO PUEDE USAR LA RAMPA?

- Los pasajeros con carritos de compras, coches de compras o carritos de bebé regulares.
- Asistentes de cuidado personal o acompañantes de personas calificadas para usar el elevador/la rampa.

Los conductores harán todo lo posible por acomodar el dispositivo de movilidad del pasajero. El dispositivo de movilidad tiene que caber de manera segura en la plataforma del elevador, y el elevador tiene que poder subir de manera segura al dispositivo de movilidad y a su ocupante. Si el dispositivo de movilidad y su ocupante no pueden utilizar el elevador de manera segura para subir al vehículo, el servicio se puede denegar. De acuerdo con el Código de Regulaciones Federales 49, Subparte G, 37.165 (c) 1.3, su conductor asegurará su dispositivo de movilidad con abrazaderas o correas que están almacenadas en todos los autobuses. Los conductores no le brindarán el servicio a un pasajero que se niegue a que su dispositivo de movilidad sea asegurado.

AL SALIR

- Cuando el autobús se detenga, por favor sea paciente y espere hacia que el conductor permita que otros clientes asciendan y desciendan del autobús. Su dispositivo de movilidad será liberado de sus abrazadera de seguridad / cinturones antes de permitir a otros pasajeros a bordo.
- Al salir, espere hasta que el elevador / rampa ha alcanzado el suelo y si se utiliza OmniGo o Access, agarrese hasta que la barrera de seguridad ha caído antes de trasladarse fuera de la plataforma.

sbX

Las estaciones de sbX ofrecen subir al nivel del autobús con rampas elevadoras que cubren la separación entre la plataforma y el vehículo. En cada autobús hay dos sitios donde asegurar sillas de ruedas, cada uno de ellos equipado con dispositivos que mantienen a la silla de ruedas en su lugar de forma segura. Los conductores ofrecen asistencia para asegurar las sillas según sea necesario. Hay cinturones para el regazo/hombro disponibles para quienes los soliciten.

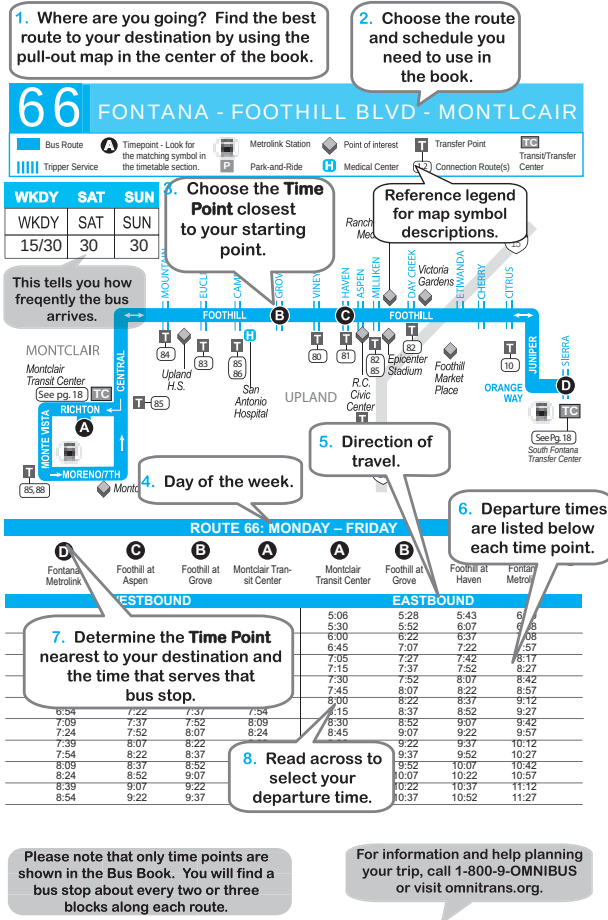

ANIMALES DE SERVICIO

Los animales de servicio designados son bienvenidos para viajar en el autobús de manera gratuita. Por favor, tenga en cuenta que su conductor le puede preguntar si su animal es un animal de servicio, y qué tareas ha sido entrenado. También se le puede solicitar que retire a su animal de servicio del autobús si 1) el comportamiento del animal está fuera de control y usted no toma medidas efectivas para controlarlo; o 2) el animal representa una amenaza directa para la salud o la seguridad de otras personas. Las mascotas sólo pueden viajar en el autobús si se encuentran en una jaula para mascotas segura que quepa en su regazo. A los animales no se les permite montar en asientos.

TÍTULO VI DE LA IEY DE DERECHOS CIVILES DE 1964
