FORM MOTION

Receive and file the final Consolidation Study report.

This item was reviewed by the Administrative and Finance Committee at its September 10, 2020 meeting and forwarded to the Board of Directors to receive and file.

BACKGROUND

As detailed at the November 2019 Omnitrans Board of Director's Meeting, the San Bernardino County Transportation Authority (SBCTA) awarded a contract to WSP USA, Inc. to complete the SBCTA and Omnitrans Consolidation Study and Innovative Transit Review of the Metro-Valley (Study).

WSP has presented the findings of four detailed reports to both Omnitrans and SBCTA Boards including:

1. Agency Functional Assessment and Pros/Cons of Consolidation
2. Performance Review Report
3. Evaluation of Functional Areas in a Complete Consolidation
4. Detailed Analysis of Financial Impacts and Benefits of Any Proposed Consolidation

The first two reports were presented to the Boards in April 2020 and the final two reports were presented in September 2020.

The Detailed Analysis of Financial Impacts demonstrated there were significant one-time costs in the range of \$100 million to \$174 million, limited annual savings, significant risks, and little functional overlap between the agencies. As a result of these findings, SBCTA staff recommended against consolidation. At the September 2, 2020 Omnitrans Board of Director's meeting, Omnitrans' Board supported the SBCTA staff recommendation. At the September 2, 2020 SBCTA Board of Director's meeting, the SBCTA Board of Directors also supported staff recommendation

not to consolidate the agencies.

Even though both Boards took action not to consolidate the agencies, there was a desire to complete Task 2 “Consolidation Findings Report, Implementation Report and Final Consolidation Report.” Completing Task 2 of this study, which includes a preliminary implementation plan, allows the full scope to be completed should the question of consolidation arise again in the future.

This report is also being presented at the SBCTA Transit Committee on September 10, 2020 following this Administrative and Finance Committee meeting.

Key elements of Task 2 include:

- Summary of all other previous study components and discusses some considerations and tradeoffs of a complete consolidation
- A hypothetical schedule laying out how a consolidation might take place
- A proposed organizational structure in a potential complete consolidation
- A review of consolidation considerations responding to COVID-19 pandemic
- A review of streamlining opportunities without consolidation
- Implementation plan and guidance

The attached reports are the final reports of the consolidation study element of the “SBCTA and Omnitrans Consolidation Study and Innovative Transit Review of the Metro-Valley.” Task 3 - The Innovative Transit Review element of this study is ongoing. Both Omnitrans and SBCTA Boards will receive a final Task 3 report later this year.

CONCLUSION

Receive and file the final Consolidation Study report.

**SUBJECT: CUSTOMER COMMENT STANDARD OPERATING PROCEDURES
UPDATE**

FORM MOTION

Receive and file this staff report on Omnitrans' Standard Operating Procedure for Handling and Processing Customer Comments.

This item was reviewed by the Administrative and Finance Committee at its September 10, 2020 meeting and forwarded to the Board of Directors to receive and file.

BACKGROUND

In Fiscal Year 2019-2020, Omnitrans received nearly 120,000 customer comments. Approximately two-thousand of these were formalized inquiries, compliments, or complaints regarding agency services and related issues via its Call Center, Transit Center and Administration Facility information desks, letters, and digital communications channels. The agency has long managed these customer interactions via its Standard Operating Procedure for Handling and Processing Customer Comments, with five goals in mind:

- 1) Ascertain trends and take a proactive approach to concerns;
- 2) Ensure prompt response to customer concerns;
- 3) Expedite customer comment resolution;
- 4) Provide centralized handling, processing, and record-keeping; and
- 5) Adhere to appropriate federal guidelines.

The procedure was most recently updated in March 2020. The detailed process is attached; however, the procedure can be summarized in eight steps:

- 1) All customer contacts are recorded, stored, and filed in a database by Omnitrans Customer Service representatives.

- 2) Safety-related concerns are immediately forwarded to the Operations and Safety departments.
- 3) In the event of an Americans with Disabilities Act or Access-related concern, Customer Service representatives assist customers in preparing a written summary of the event, which is investigated by Omnitrans' contractor staff, with resolution reviewed and approved by Omnitrans' Deputy Director of Operations or designee within ten business days.
- 4) In the event of a Title VI complaint regarding discrimination based on race, color, or national origin, information is forwarded to the agency's designated Title VI officer in the Strategic Development Department for investigation and resolution.
- 5) Any complaint regarding injury or damage is forwarded to Human Resources for claims assistance.
- 6) All other claims are routed to the appropriate department designee – for example, Operations Field Supervisors – by the Customer Service Manager for investigation within two business days of initial contact. Investigations will be completed within five business days. The investigation and its results will be recorded in the database, and resolution action handled and filed by the appropriate department.
- 7) Customers are provided written acknowledgment of their complaint within two business days of initial contact, containing a unique reference number for follow-up, if needed.
- 8) Customer comment process progress, investigation status and results are monitored by the Customer Service Manager.

Omnitrans utilizes this procedure to ensure that customer service standards are met.

CONCLUSION

Omnitrans' Standard Operating Procedure for Handling and Processing Customer Comments provides a valuable tool for the agency and its contractors to measure customer service, enhance customer retention and satisfaction, and ensure that best practices are maintained.

SUBJECT OmniTrans Standard Operating Procedures for Handling and Processing Customer Complaints and Comments	PREPARED BY: Melissa Castillo APPROVED BY: E. Rogers SIGNATURE: _____ DATED: _____

Overview: OmniTrans is committed to providing safe, quality service to its customers and appreciates the feedback received from the public. Customer complaints, specifically those related to safety, security, accessibility (including Americans with Disabilities Act (ADA) and Civil Rights (Title VI) violations are immediately investigated and addressed. All comments are reviewed by appropriate staff and accepted as an opportunity to enhance our overall transit services.

Goal: Customer comments, both positive and negative, are a natural part of any business. However, a key to maintaining a successful business is to be able to respond to all comments in a timely and efficient manner. To this end, OmniTrans has developed procedures for handling customer comments to:

- Expedite resolution
- Ascertain the trends to take a proactive approach
- Ensure customer response
- Provide centralized handling and processing
- Adhere to Federal guidelines, where appropriate

This procedure will involve all departments; however, it will be directed through the Marketing & Communications department. These procedures will encompass OmniTrans' fixed route (sbX, local, and express), Demand Response and Microtransit services. Each service has comments that are similar, but also have those that are unique.

Justification

Published marketing research has shown that when a customer has a positive experience with a product or organization, he/she will tell five people. However, if a customer has a negative experience, nine people will be told. Sales and Marketing is five times as expensive as customer service. It is highly economical to keep customers. Information gleaned from complainants becomes invaluable when used to determine best practices and methods to utilize in attracting new customers and retaining existing customers. A two percent increase in retention equals a ten percent reduction in costs. If an organization 'fixes' what customers are telling them is wrong, retention of the existing customer base occurs, and positive word of mouth attracts new customers. This more than outweighs the impact of any negative comments.

Overview: Comments and complaints are expressed by customers via use of various platforms that include telephone calls to the Call Center, letters, in person, and multiple digital communication channels.

The Customer Service Manager or designee maintains a database (Trapeze COM) which stores all customer comments/complaints and related investigation details. The Customer Service

Representative enters the details of the incident in the Trapeze COM database. This database tracks all contact forms. The contact form is forwarded to the Customer Service Manager or designee via the e-mail feature in the software. Within the database, each customer comment/complaint is designated as a customer contact and a unique reference number is assigned for tracking and reporting purposes. For records retention purposes, all customer contacts received are stored and filed permanently within Trapeze COM. Written or digital customer contacts are subject to Omnitrans' record retention policies.

Guidelines

To ensure clarity and objectivity, the following guidelines should be used when recording a customer's comments in the Trapeze COM database-CS Representative screen:

1. When a comment is received by telephone, the Customer Service Representative enters the information in the Trapeze COM database in the CS Representative screen. Comments received in writing should be forwarded to the Customer Service Manager or designee for documenting and responding. Correspondence received via digital communication channels should be forwarded to assigned Customer Service staff responsible for providing initial customer responses and inputting information into the Trapeze COM database. The online customer comment form is currently found on Omnitrans website at:
<http://www.omnitrans.org/about/contact/contact-us/>
2. In the case of telephone calls, the Customer Service Representative should record the details of the customer's comments, commendation, or complaint exactly as the customer relates it. The report should include all information provided by the caller. While some of the details may not seem important, they may prove to be helpful to complete the investigation. The person taking the report should demonstrate compassion and understanding of the caller's problem but should not express guilt or responsibility on the part of Omnitrans at any time during the conversation. The caller is only relating one version of the event. To ensure resolution, it is vital that the Customer Service Representative remain objective and avoid absorbing the caller's emotions. All customer comments are to be considered confidential and, under no circumstances, should they be discussed with Omnitrans employees other than those directly involved with the investigation or resolution of the matter.
3. All information regarding route number, location, direction of travel, date of incident, time of incident, bus number, and date received will be recorded. In most cases, this will require having to ask the caller for this information.

<ol style="list-style-type: none"> 4. If a customer makes a comment that requires immediate attention, the Trapeze COM database screen should be filled out in the normal manner. In the following cases, however, the department involved will be contacted by Customer Service staff immediately via email: <ol style="list-style-type: none"> A. Any report of an unsafe situation involving OmniTrans service, equipment or property, or: B. Any report of an employee not in control of his/her behavior, due to possible intoxication, use of drugs, or illness. In these cases, a copy of the report will be forwarded to the Manager of Safety & Regulatory Compliance, the employee's direct Supervisor or Manager and Dispatch Supervisor. Dispatch will also be notified via phone and notified of reported unsafe action. 5. If a complaint is specifically related to a violation of the Americans with Disabilities Act (ADA), the Customer Service Representative may request a brief written confirmation of the event. OmniTrans may choose, at its discretion, to write the report and mail it to the complainant for signature. To ensure that this information will be included in the final report, the Customer Service Representative will provide the customer with the reference number of the Customer Contact Form as generated by the Trapeze COM database via mail on a customer contact card. Complaints found to have violations of the American with Disabilities Act will be investigated following previously outlined procedures; once investigations are complete the Deputy Director of Operations or designee will review findings and post their concurrence with the findings. Any findings not deemed to be reasonable or responsive to the ADA violation related complaint will be require further investigation and follow up by designated investigator. Upon completion of further investigation and follow up, a second review by the Deputy Director of Operations or designee will take place in order to ensure concurrence has been reached. 6. Title VI Complaints (Details in Identifying Title VI-related complaints at the end of this procedure) If a complaint is related to a potential Title VI violation, the Customer Service Representative will notify the Customer Service Manager or designee. The Customer Service Manager or designee will forward Title VI complaints via Trapeze COM to the Planner I for review and documentation. The Planner I will document their findings related to the validity (or not) of the complaint falling under the category of a Title VI complaint in Trapeze COM. 7. The person taking the call should assure the customer that the incident will be investigated, and appropriate action taken. The details of the specific action will not be given to the caller. Customers who insist on knowing the specific action will be reminded that such information is not disclosed to Customer Service and will assist if possible, with resolution. If an injury

or damages are reported the Customer Service Representative will refer caller to Human Resources Administrative Assistant for assistance with a claim. Once a claim has been submitted, further correspondence related to incident in claim shall be handled by current Insurance Adjustor.

8. If a customer appears to be a chronic complainer or appears to have a vendetta against a Coach Operator, the Director of Operations may recommend that some or all complaints made by that person be deleted from the Coach Operator's personnel file. Should this situation occur, the Coach Operator will be notified that the complaints have been removed.

Anonymous or Third-Party Comments

1. Anonymous Comments. Anonymous complaints received that include all details needed for an investigation should be documented using “Anonymous” as the name. The Customer Service Representative will explain to the customer that, without a name or some other type of contact information, the Customer Service Manager and the designated Investigator may not be able to pursue the matter based on potential unconfirmed or undocumented information. Failure on a customer’s behalf to provide contact information results in the inability to provide additional information or updates; if customer should call in the future asking for an update no information will be provided. When possible, customer should be provided information to connect to our partners at WeTip if they would like to report suspicious or dangerous activity and remain anonymous.

2. Third Party Comments. If a third-party comment is received (one that comes from someone who was a witness to the incident, but not directly involved), every effort must be made to obtain the name, address, and telephone number of the person who is being represented by the caller. If this information cannot be obtained, the comment will be considered anonymous and will be processed as described above.

3. Classifications. Customer comments can be classified within Trapeze COM as complaints, commendations, comment/requests, inquiry, lost and found or other. Customer Service Representatives are responsible for designating the complaint subcategories under each classification.

Customer Service Distribution Procedures

1. The Customer Service Representatives will forward the Customer Contact Forms, via the e-mail function in the Trapeze COM software, to the Customer Service Manager or designee daily.

	EFFECTIVE DATE: March 4, 2020 REVISION DATE:
SUBJECT OmniTrans Standard Operating Procedures for Handling and Processing Customer Complaints and Comments	PREPARED BY: Melissa Castillo APPROVED BY: E. Rogers SIGNATURE: _____ DATED: _____

2. The Customer Service Manager or designee will determine if it is necessary to forward the complaint to another department for research, or if the complaint contains sufficient detail to be answered by the Marketing & Communications department. This is to be completed within two business days from receipt of the complaint.
3. The Customer Service Representative will send a customer acknowledgement card to the customer thanking him/her for his/her comments and/or assuring them the problem will be investigated. This is to be completed at the time the initial contact is received or not more than two business days from the receipt of the complaint.

Distribution to Other Departments

1. The Customer Service Manager or designee will forward complaints, when necessary, to those departments that are impacted by the complaint. This process is to be completed within two business days from the receipt of the complaint.
2. To ensure a timely response to a customer complaint, investigation of the complaint and response to the Customer Service Manager or designee is to be made within five working days after receipt of the complaint.
3. For the purposes of clarity, the Customer Service Manager or designee may distribute customer comments and complaints to impacted departments when the following situation(s) occur:
 - If the comment involves fixed-route or express service: Coach Operator attitude, Coach Operator conduct, unsafe driving, reports of pass-up, early, late or no show, disturbances on the coach, etc., the comment is forwarded to the Operations department.
 - If the comment involves demand response or microtransit services: Coach Operator attitude, Coach Operator conduct, unsafe driving, reports of pass-up, early, late or no show, disturbances on the coach, Call Center or other contract personnel issues etc., the comment is forwarded to the designated Purchased Transportation Contract Services (contractor) designee and the Purchased Transportation Administrator.
 - If the comment involves requests for new service, addition of service, deletion of service, or bus stop placement, the comment is forwarded to the Service Planning section of the Strategic Development department.
 - If the comment involves a potential liability claim, a Customer Contact Form is completed in Trapeze COM and a copy sent via the Trapeze software e-mail to the Human Resources Administrative Assistant for follow-up.

	EFFECTIVE DATE: March 4, 2020 REVISION DATE:
SUBJECT OmniTrans Standard Operating Procedures for Handling and Processing Customer Complaints and Comments	PREPARED BY: Melissa Castillo APPROVED BY: E. Rogers SIGNATURE: _____ DATED: _____

- Requests for Bus Books and other promotional materials, as well as inquiries regarding promotional activities and media needs, are handled by the Marketing & Communications department.
- If the comment involves vehicle mechanical failures, graffiti, dirty equipment, etc., the comment is forwarded to the Maintenance department.

Response to Customer

All customers who provide their address will be sent a customer acknowledgement card which provides a unique reference number assigned to their complaint/comment in case they would like to follow up with their complaint. If noted in the complaint, the Customer Service Manager will contact customer to inform customers their concerns have been investigated and addressed by the investigator. Customers using digital communication channels will be responded to via email. If email is not an option, initial response will be provided via initial communication channel used by customer. If the complaint is regarding demand response or other contracted service, a formal response prepared by the Purchased Transportation Administrator or designee will be forwarded to the Customer Service Manager who will document and send out correspondence to customer. This is to be completed within ten business days of receipt of the complaint.

Complementary Paratransit and Persons with Disabilities

Complaint management is a feature of a Paratransit service quality assurance and Americans with Disabilities Act (ADA) compliance program that is overseen by OmniTrans' Purchased Transportation Administrator. The primary objective of the program is to utilize passenger feedback to adjust and modify paratransit services to create services that are fully accessible and adaptive to the maximum extent possible to passengers with substantial disabilities.

Internal Communications

In order to accurately complete the Customer Contact Form, the Operations department will forward via email information related to route delays, breakdowns, detours or service disruptions as soon as possible. Efforts will be made to distribute this information to the Marketing & Communications Department, which is responsible for relaying information to the public via established communication channels.

Identifying Complaints with Violations of the Americans with Disabilities Act (ADA)

OmniTrans abides by all federal and state standards and regulations related to providing service to individuals with disabilities. This includes operating under the Federal Americans with Disabilities Act (ADA) of 1990; the Rehabilitation Act of 1973 (Act); United States Department of Transportation (USDOT), and California accessibility requirements. Any denial of, or interference with, the rights of individuals with disabilities seeking full and equal use of OmniTrans' services, or otherwise discriminating against individuals with disabilities may result in state and/or federal penalties, such as those imposed by the ADA and/or Act.

Examples of these sorts of comments or complaints include deviation from the following outlined ADA requirements which are regulated by the U.S. Department of Transportation (<https://adata.org/factsheet/ADA-accessible-transportation>):

OVERVIEW OF REQUIREMENTS

- **Rider information:** A public transportation system must provide adequate information on services in accessible formats for persons with different types of disabilities (e.g. information in large print, braille or alternative and electronic format).
- **Assistance equipment and accessible features:** Equipment and facilities such as lifts, ramps, securement devices (straps for securing wheelchairs on board), signage, and communication devices must be in good operating condition. If a feature is out of order, it must be repaired promptly. In the interim, an alternative accessible vehicle or option must be available.
- **Adequate time to board:** Public transit operators must allow adequate time for people with disabilities to board and exit from vehicles.
- **Service animals allowed:** Service animals may accompany people with disabilities in vehicles and facilities. The DOT ADA regulations define a service animal as any guide dog, signal dog or other animal individually trained to provide assistance to an individual with a disability, regardless of whether the animal has been licensed or certified by a state or local government.
- **Priority seating and signs:** Fixed-route systems (those operating along a prescribed route) must have signs designating seating for passengers with disabilities. At least one set of forward-facing seats must be marked as priority seating (for people with disabilities).
- **Operator training:** Each public and private transportation operator must ensure that personnel are trained to operate vehicles and equipment safely; properly assist individuals with disabilities in a respectful, courteous way; and recognize that individuals with disabilities have different abilities and needs requiring different types of assistance.

	EFFECTIVE DATE: March 4, 2020 REVISION DATE:
SUBJECT OmniTrans Standard Operating Procedures for Handling and Processing Customer Complaints and Comments	PREPARED BY: Melissa Castillo APPROVED BY: E. Rogers SIGNATURE: _____ DATED: _____

ARCHITECTURAL REQUIREMENTS

- **Stop announcements:** Stops must be announced at transfer points, major intersections, destination points, and other points so that people with visual impairments understand their location. In addition, the operator must announce any stop at the request of a rider with a disability.
- **Destination information on vehicles:** Vehicles must have destination and route information on the front and boarding side of a vehicle. There are size requirements for the numbers and letters on the route information signs. Destination and route information must be announced.
- **Lifts and Ramps:** Vehicles need a boarding device (e.g. lift or ramp) so that a passenger who uses a wheelchair or mobility device can reach a securement location onboard. Lifts must have a minimum design load of 600 pounds and lift platforms must accommodate a wheelchair measuring 30 inches by 48 inches.
- **Illumination, contrast, and slip-resistant surfaces:** Stepwells and doorways of vehicles must be illuminated. Doors and steps need slip-resistant surfaces.
- **Farebox:** Fareboxes must be located so they do not obstruct passenger flow for boarding the bus.
- **Turning room, handrails, and pull cords:** There must be sufficient turning and maneuvering space for wheelchairs. Handrails and stanchions (vertical rails) in the vehicle must be accessible. A stop control, such as a pull cord or button, should be within reach of wheelchair securement locations.

COMPLEMENTARY PARATRANSIT SERVICE

ADA complementary paratransit service provides origin-to-destination service and must be available where fixed-route service exists. OmniTrans' service policy provides curb-to-curb complementary paratransit service; assistance is provided to the customer to enter and exit the vehicle at the curb. *If a customer needs assistance due to disability, physical barriers in the walkway or adverse weather conditions, the driver may need to offer assistance beyond the curb to the door.*

ADA Paratransit Service Minimum Requirements

- **Service area:** Within a three-quarter mile on either side of a fixed route.
- **Hours and days of service:** Same hours and days as fixed route.
- **Fare:** Fares may not exceed twice the fare that would be charged to an individual paying full fare for a fixed-route trip of similar length, at a similar time of day. A personal care attendant shall not be charged.
- **Response time:** Paratransit service must be provided at any requested time on a particular day in response to a request for service made the previous day. Real time scheduling, in which a call to the transit provider would result in pickup the same day, is allowed but not mandated.

	EFFECTIVE DATE: March 4, 2020 REVISION DATE:
SUBJECT OmniTrans Standard Operating Procedures for Handling and Processing Customer Complaints and Comments	PREPARED BY: Melissa Castillo APPROVED BY: E. Rogers SIGNATURE: _____ DATED: _____

- **Trip purpose restrictions:** No restrictions or priorities based on trip purpose are allowed.
- The following are not allowed:
 - Restrictions on the number of trips per eligible individual
 - Waiting lists for access to the service
 - Substantial numbers of significantly untimely pickups for initial or return trips
 - Substantial numbers of trip denials or missed trips
 - Substantial numbers of trips with excessive trip lengths

TRANSIT FACILITIES

Transit facilities, intermodal centers, rail stations and platforms must meet accessibility standards established by the U.S. DOT. The requirements apply to new construction as well as alterations made to existing facilities and include the following:

- Accessible paths of travel
- Boarding ramps and bridge plates
- Bus stops and shelters
- Curb ramps, doors, elevators, escalators, emergency alarms
- Fare collection, gates and turnstiles, grade crossings, parking
- Passenger drop-off areas, platforms edges, rescue assistance areas
- Restrooms, signs, stairs, public telephones, water fountains, wheelchair spaces

Accessible paths: The accessible path of travel should be as close to the general circulation path as possible. Minimize any additional distance people with disabilities must travel to use ramps, elevators and other accessible features of the path.

Level boarding: Train doorways and station platforms must be at the same level, and gaps between them must be narrow enough for an ambulatory passenger to step across or a wheelchair user to roll across without difficulty. Span gaps using a short bridge plate when necessary for people with disabilities.

Identifying Title VI-related Complaints

According to Title VI of the Civil Rights Act of 1964, OmniTrans cannot discriminate against individuals based on race, color, or national origin, and must identify, flag, and act on complaints which are of this nature. In some cases, it will be readily apparent that a complaint is Title VI in nature; in other cases, however, it may be difficult to recognize it as being such. In many of the latter cases, the complainant may not even be aware that the complaint is Title VI in nature.

Complaints which are received may fall into two rather broad categories which are subsumed into Title VI-type complaints. These two broad categories can be distinguished as being either 1) **Immediate Service level**, or 2) **Broad Planning or Policy level**.

An **Immediate Service Level complaint** would be one that asserts directly (or indirectly) that an *individual* has experienced immediate, direct, and personal discrimination by some element of the agency based on race, color, or national origin.

These complaints are of a more individual character, and not indicative of an agency-wide procedure.

Examples of these sorts of comments would be as follows:

1. An OmniTrans coach operator refuses to pick *me* up because my race
2. An OmniTrans coach operator threw *me* off the bus or has it in for me because of my race
3. OmniTrans coach operators refuse to pick people up from *this stop* because the customers are of this race
4. *Some OmniTrans Coach Operators* have made derogatory comments of a racial, ethnic, lack of English language proficiency, etc.

****These type of complaints are already addressed by the apparatus we have in place in Trapeze COM, and should continue to be categorized accordingly** (for example, if a rider complains that he was passed up because of his race, it is still categorized as a “pass up”).**

A **Broad Planning or Policy Level complaint** would be *one which indicates that asserts something affects more than one individual (again, because of the complainant’s race, color, or national origin or language usage difference). It compares one person or group to others and appears to be characteristic of agency-wide policies*. This type of complaint must be more comparative in nature. It compares (explicitly or implicitly) what the agency is doing for them versus what it is doing for other communities. These will include coach incidents, public outreach incidents, or involving publications the agency issues. Examples of these sorts of comments would be:

	EFFECTIVE DATE: March 4, 2020 REVISION DATE:
SUBJECT OmniTrans Standard Operating Procedures for Handling and Processing Customer Complaints and Comments	PREPARED BY: Melissa Castillo APPROVED BY: E. Rogers SIGNATURE: _____ DATED: _____

1. OmniTrans Coaches are always refusing to pick up riders at stops in this part of the community.
2. OmniTrans coach operators are repeatedly abusive to riders along this route or series of stops.
3. OmniTrans never has materials printed up in my language
4. I can't read or write English, and OmniTrans doesn't have someone who will help me by the reading or explaining the material to me
5. My community doesn't speak English, and we need transit materials in our language.
6. I noticed OmniTrans never empties the trash at the bus stop(s) in my community, but the stops are nice and clean in another community.
7. OmniTrans refuses to build a route in my community although we've been asking for it for years.
8. OmniTrans has improved facilities or amenities in that city, but not in my city.
9. OmniTrans is building a BRT corridor in *that* city, but not in ours. Why not?
10. The rich communities are getting more service, but services in the poorer communities are being cut.
11. I notice that people of one race are being repeatedly and systematically discriminated against by OmniTrans.
12. OmniTrans has raised the fares and that disproportionately affects poor people or people of a certain ethnic group.

An important common component of these complaints is an explicit or implied comparison of one group of people or community to another or to everyone else. Comments of this nature should be flagged as a Title VI complaint. Since these are broader, policy-level types of complaints, then they should be addressed in a different way than the individual-level, Civil Rights complaints. As well, a body of boiler-plate type replies should be generated so as to give immediate response to these comments in the interim.

TITLE VI COMPLAINT PROCEDURES

OmniTrans has developed this set of procedures for receiving, investigating and tracking Title VI complaints.

Any person who believes that he or she has been discriminated against on the basis of race, color, or national origin by OmniTrans may file a complaint by submitting a completed Customer Contact Form, by submitting the Contact Us Form at OmniTrans.Org, or by submitting a verbal complaint over the telephone to OmniTrans' Information Desk. This must be done within 180 calendar days of the date of the alleged discrimination. Complaints must state as fully as possible the facts and circumstances surrounding the alleged discrimination.

Upon receiving the complaint, OmniTrans will provide the complainant or his/her representative with an acknowledgement letter within 14 calendar days. Following this acknowledgement letter, OmniTrans will investigate the complaint to determine if it is a potential Title VI violation.

According to Title VI of the Civil Rights Act of 1964, OmniTrans cannot discriminate against individuals based on race, color, or national origin. For a complaint to rise to the level of a Title VI complaint and potential violation, it must indicate disparate treatment or disparate impact due to intentional or unintentional discrimination. This can include long-term or immediate issues of discrimination that OmniTrans fails to resolve, or policy-level issues of disparate service or treatment. A complaint which falls under one of these categories will be regarded as having merit for evaluation except under the following circumstances: unless it clearly appears on its face to be frivolous or trivial; OmniTrans voluntarily concedes noncompliance and agrees to take appropriate remedial action; within the time allotted, the complaint is withdrawn; or, other good cause for not investigating the complaint exists. For monitoring purposes, the complaint will be documented as a Title VI complaint.

OmniTrans will complete the review process and determine the complaint's merit, and inform the complainant of its decision in a Finding Letter or email within 30 calendar days of the date of the acknowledgement letter. In the event a decision is made to not investigate the complaint, the notification shall specifically state the reason for the decision. In the event the complaint is to be investigated, the notification shall inform the complainant that an investigation will take place, and may request additional information needed to assist the investigator in preparing for the investigation. OmniTrans must receive requested information within 21 calendar days of the date of notification requesting additional information. The complainant's failure to provide additional requested information may result in OmniTrans closing the case administratively. A complaint can be administratively closed as well if the complainant no longer wishes to pursue his/her complaint.

BACKGROUND

Policy 606 - Vacation section III F states that eligible employees must use 80 hours of vacation in order to cash out one week of vacation. CONCLUSION

Ratify temporary waiver of a provision of Policy 606 due to COVID-19. Approving this temporary waiver will allow employees who have not used 80 hours of vacation to cash out one week of vacation.

SUBJECT: BOARD RESOLUTION NO. 326-2020, OMNITRANS' CALPERS DEDUCTION PLAN

FORM MOTION

Adopt Resolution No. 326-2020, Omnitrans' CalPERS Deduction Plan.

BACKGROUND

CalPERS allows employees to buyback service credit and redeposit associated funds that had been previously withdrawn. Currently, the only option for Omnitrans employees to do this is by using after tax dollars. This resolution is required by CalPERS in order to offer employees the option of a tax deferred buy back.

By default, contributions to a retirement plan designated as employee contributions are taxable wages pursuant to IRC Section 414(h)(1) unless otherwise exempted. For local government employees, Section 414(h)(2) provides that the employer may "pick-up" employee designated contributions and treat them as if they were paid by the employer even though in most cases they are deducted from the employee's wages (the exception is the employer paid member contribution that is paid by the employer) if a resolution with the appropriate language is adopted. This converts the post-tax contribution into a pre-tax contribution.

If passed, employees that currently pay on an after-tax basis, have the option to enroll in tax deferred payments, but once this option is chosen it is irrevocable. For future buy back contributions, employees will have a choice of tax deferred or after tax.

This resolution has been reviewed by legal counsel and the language is consistent with IRC Section 414(h)(2) and associated guidance.

CONCLUSION

Adopt the Resolution of Omnitrans' CalPERS Deduction Plan.

**A RESOLUTION OF THE OMNITRANS BOARD OF
DIRECTORS, SAN BERNARDINO COUNTY, CALIFORNIA
AUTHORIZING THE TAX DEFERRED DEDUCTION PLAN
FOR SERVICE CREDIT PURCHASES**

WHEREAS, the Board of Administration of the California Public Employees' Retirement System (CalPERS) at the April 1996 meeting approved a Tax-Deferred payroll deduction plan for service credit purchases under Internal Revenue Code (IRC) section 414(h)(2); and

WHEREAS, the Omnitrans has the authority to implement the provisions of IRC section 414(h)(2) and has determined that even though implementation is not required by law, the tax benefit offered by this section should be provided to those employees who are members of CalPERS; and

WHEREAS, the Omnitrans elects to participate in the Tax-Deferred payroll deduction plan for all employees in the following CalPERS employee groups or classifications:

NOW, THEREFORE BE IT RESOLVED BY THE OMNITRANS BOARD OF DIRECTORS, that:

- I. That the Omnitrans will implement the provisions of IRC section 414(h)(2) by making employee contributions for service credit purchases pursuant to the California State Government Code on behalf of its employees who are members of CalPERS and who have made a binding irrevocable election to participate in the Tax-Deferred payroll deduction plan. "Employee contributions" shall mean those contributions reported to CalPERS which are deducted from the salary of employees and are credited to individual employee accounts for service credit purchases, thereby resulting in tax deferral of employee contributions.
- II. That the contributions made by the Omnitrans to CalPERS, although designated as employee contributions, are being paid by the Omnitrans in lieu of contributions by the employees who are members of CalPERS.
- III. That the employees shall not have the option of choosing to receive the contributed amounts directly instead of having them paid by the Omnitrans to CalPERS.
- IV. That the Omnitrans shall pay to CalPERS the contributions designated as employee contributions from the same source of funds as used in paying salary, thereby resulting in tax deferral of employee contributions.
- V. That the effective date for commencement of the Tax-Deferred payroll deduction plan cannot be any earlier than the date the completed resolution is received and approved by CalPERS.
- VI. That the governing body of the Omnitrans shall participate in and adhere to requirements and restrictions of the Tax-Deferred payroll deduction plan by reporting Tax-Deferred payroll

deductions when authorized by CalPERS for those employees of the above stated employee groups or classifications who have elected to participate in this plan.

SUBJECT: TRANSITION TO HYBRID/IN-PERSON MEETINGS

FORM MOTION

Approve the transition to hybrid/in-person Committee meetings; continue virtual Board meetings and reevaluate in January.

This item was reviewed by the Executive Committee at its September 4, 2020 meeting and the Administrative and Finance Committee at its September 10, 2020 meeting and recommended to the Board of Directors for approval.

BACKGROUND

In July and September, respectively, staff provided the Executive Committee and the Board of Directors an update on upgrades to the technology that supports the Board and Committee Meetings. These upgrades include: 1) the technology in the Boardroom such as displays, presentation control, sound, and telephonic equipment; and 2) implementation of an agenda management software, PrimeGov. At that time, the Executive Committee also discussed the possibility of a transition back to in-person meetings. During this discussion, it was determined that due to the continued uncertainty of the COVID-19 pandemic, Omnitrans would continue to hold meetings via Zoom. Staff was directed to return to the Executive Committee for further discussion in September.

After further discussion at its' September 4, 2020 meeting, the Executive Committee provided direction to staff to transition to hybrid/in-person Committee meetings starting in October, continue with virtual Board meetings, and reevaluate the transition to hybrid/in-person Board meetings in January.

DISCUSSION

The Governor of California's Executive Orders N-25-20, N-29-20, and N-35-20 allow public meetings to be held virtually and remain in compliance with the Brown Act. These executive orders are still in place, however, many of our JPA members and similar local agencies have begun to meet in-person, or at least explore meeting in-person.

Staff has evaluated options to maintain social distancing in an in-person Board or Committee meeting. The recommended approach is to offer hybrid/in-person meetings. This will allow Board Members who desire to participate in-person to do so, while still offering the Zoom meeting format to Members who prefer a virtual alternative. This approach will work for all Committee meetings and when the Board desires to transition to hybrid/in-person meetings, it would accommodate up to 12 Board Members participating in-person.

Once more than 12 Board Members desire to participate in person, both the Boardroom and the Library Conference Room would be used to allow for social distancing. An audio and video link will connect the Library Conference Room to the main conference room. Initially, staff recommends continuing to offer the public only remote access via Zoom. In addition, staff in-person participation would be limited to Directors or presenters; other staff would continue to participate via Zoom.

CONCLUSION

Staff has installed the equipment necessary to offer a hybrid/in-person meeting alternative for Committee and Board meetings. Based on direction provided by the Executive Committee and Administrative & Finance Committee, staff recommends beginning hybrid/in-person meetings for Committee meetings starting in October and continuing virtual Board meetings and re-evaluating in January. This phased approach will provide alternatives to Board members while allowing staff the time to gain more experience with the technology and evaluate required safety protocols.

**SUBJECT: AUTHORIZE RELEASE – RFP-SAS21-15, CAMERA REFRESH
(CCTV)**

FORM MOTION

Authorize the CEO/General Manager to release Request for Proposals RFP-SAS21-15 for the provision of a Camera Refresh (CCTV) System, Installation, and Maintenance.

BACKGROUND

For the safety and security of its customers, employees, and property, Omnitrans uses a closed-circuit television (CCTV) system to monitor its facilities. Not only do the cameras provide real-time monitoring of unmanned or remote locations, they can provide valuable information should an incident occur. In addition, the presence of cameras can serve as a deterrent to potential intruders and the presence of surveillance equipment emphasizes the agency's dedication to public safety.

The current CCTV surveillance system, installed in 2009, operates obsolete analog-based equipment that has reached its useful life and needs to be replaced. Staff recommends issuing an RFP to select the best solution to secure a state of the art, Internet Protocol (IP) surveillance system.

Per Omnitrans' Procurement Policy 2000, Section 2.3.6, Board authorization is required to release Request for Proposals for design-build procurements. Additionally, in accordance with 49 U.S.C. Section 5325 (d)(1) and FTA Circular 4220.IF, this procurement meets the definition of a design-build project to design and construct the CCTV system at a public transportation facility. The Independent Cost Estimate for this project is \$1,116,707.

FUNDING SOURCE

The cost associated with this procurement is budgeted in Omnitrans' Capital Budget as follows:

SUBJECT: AUTHORIZE SOLE SOURCE AMENDMENT 2 - CONTRACT HRS20-24 STRATEGIC PLANNING CONSULTING SERVICES

FORM MOTION

Authorize the CEO/General Manager to execute Amendment 2 to Contract HRS20-24 with MIG, Inc. of Berkley, CA, and to increase the contract authority by \$84,811 for a new total award amount not to exceed \$375,745.

BACKGROUND

On February 5, 2020 the Board of Directors authorized award of Contract HRS20-24 to MIG, Inc. of Berkeley, CA for the provision of Strategic Planning Consulting Services for a one (1) year base term with the authority to exercise three (3) single option terms, beginning February 5, 2020 and ending no later than February 2024, for a total not-to-exceed amount of \$290,934 if all options are exercised. (contract value of \$264,485 and contingency of \$26,449)

In March 2020, Omnitrans authorized Amendment 1 to Contract HRS20-24 in the amount of \$6,600 to add scope to the contract to provide third-party review of the SBCTA/Omnitrans Consolidation Study that was conducted by WSP.

Amendment 2 is necessary to add a statistically valid general public survey to the scope of the Strategic Plan. The purpose of the survey is to capture public opinion on what Omnitrans' values, key projects and priorities should be over the next several years. In order to seamlessly integrate the survey into the ongoing Strategic Plan process MIG will lead the effort through a subcontractor. The selected firm, Redhill Group, has conducted surveys for Omnitrans and several other transit and transportation agencies and can quickly mobilize to engage in this effort.

In addition to the inclusion of the survey into the Strategic Plan, Omnitrans staff evaluated the current project to determine if any other changes needed to be considered. The notice to proceed on the Strategic Plan was issued approximately one month prior to Governor Newsome issuing a Stay at Home Order due the COVID-19 pandemic. The pandemic has significantly impacted the

timeline and communication efforts necessary on this project. As a result, the amendment includes an increase in the expenditure level to cover the increased work requirements. The initial project will be extended by approximately four months. The communication efforts may now include development of a video in addition to many previously scoped items and the creation of more promotional materials.

The additional scope adds \$104,660 to the total contract bringing the total contract value if all option years are exercised to \$375,745. This is an increase of \$84,811 once the remaining contingency is included into the contract value.

In accordance with FTA Circular 4220.1F, Section VI-17, procurement by noncompetitive proposals may be used when in the case of a follow-on contract for the continued development or services it is likely that award to another contractor would result in substantial duplication of costs that are not expected to be recovered through competition and/or would result in unacceptable delays in fulfilling the recipient's needs.

FUNDING SOURCE

The cost associated with this procurement is budgeted in the Executive Office Department's Operating Budgets as follows:

 - 1040 Diversity & Economic Opportunity Policy

 - 4000 Formal Solicitation Policy
 - 5000 Protest Policy
 - 6000 Contract Administration Policy
 - 6010 Debarment Policy
 - 7000 Capital Asset Management Policy

This item was reviewed by the Executive Committee at its September 4, 2020 meeting and the Administrative and Finance Committee at its September 10, 2020 meeting and recommended to the Board of Directors for approval.

BACKGROUND

Omnitrans receives funding from various sources, most significantly from the Federal Transit Administration (FTA). FTA funds may only be used for necessary and reasonable business-related expenses incurred in the furtherance of the agency's mission and carry additional fiduciary responsibilities. Inherent in these responsibilities is the requirement to operate the agency under policy guidance set forth by the Board of Directors (BOD) and to comply with applicable federal, state, and local regulations. Proper stewardship of Omnitrans funds and risk mitigation are the responsibility of all employees involved in financial transactions. Periodic policy review ensures our policies remain consistent, effective, and current.

Proposed updates emphasize that:

- The Procurement Department is responsible for the acquisition of all supplies, equipment, and services for the agency. Under the authority of the Board of Directors, and through delegation of the Chief Executive Officer (CEO), this department has the sole authority to commit purchases and contracts on behalf of Omnitrans.
- No legal commitment of funds exists without the authority of the Procurement Department, by way of purchase order, contract, change orders, and contract amendments.
- An approved Purchase Requisition (Shopping Cart) must be generated to trigger the procurement cycle, beginning with a solicitation, and/or a Purchase Order, Contract, Change Order or Contract Amendment.

Regularly reviewing policies and procedures is necessary to keep our organization current with regulations, technology, and industry best practices. The Board of Director's (BOD) last review and update was in June of 2017.

DISCUSSION

A total of 14 policies are presented for consideration. Of the 14, one is a proposed new policy, one is proposed for elimination in its entirety, six propose minor language changes, and the remaining six propose changes to purchasing thresholds and processes. Surveys were conducted with like agencies to benchmark and align with best practices and the FTA purchasing thresholds. The most notable change proposed is increasing the CEO's signature authority from \$50K to \$150K for formal procurements; said change is consistent with the agencies polled while remaining below FTA's \$250K Simple Acquisition Threshold (SAT). Also, it is proposed to transfer the authority to release formal procurements from the BOD to the CEO. These two changes alone will significantly streamline the procurement process. A complete summary of the proposed changes is detailed below:

Policy	Title	Change	Justification
1000	General Policy	1)Remove Statutory and Regulatory table 2)Director of Procurement is responsible for implementation vs CEO/GM	1)Instead we will refer to guidelines, removing need to update with new revisions

**GENERAL PROCUREMENT
EMERGENCY, & NON-COMPETITIVE, &
COOPERATIVE PROCUREMENTS
POLICY**

Board Approval: ~~October 2, 2019~~ October 7, 2020

1. POLICY OVERVIEW

This policy sets for the guidelines for emergency procurement and non-competitive procurements.

1.2. EMERGENCY PROCUREMENT POLICY

1.1.2.1. In accordance with Public Contract Code (PCC) ~~20134~~ and 22050 ~~(b)(1)~~, Omnitrans may conduct procurement on an emergency basis if the procurement is essential to an Omnitrans requirement to deal with an existing emergency condition, as defined in the section below.

~~1.2. PCC 22050 requires a four-fifth vote and finding by the Board of Directors (Board) that the emergency will not permit a delay resulting from a competitive solicitation for bids, and that the action is necessary to respond to the emergency, and continued review by the Board of the need for the emergency action.~~

1.3.2.2. For purposes of an emergency procurement under this policy, an "emergency condition", is a great public calamity (such as an extraordinary fire, flood, storm, or other disaster, epidemic, pandemic, riot, terrorist activity, equipment failure), interruption of contracts essential to the provision of daily transit service, or which creates an immediate threat to the public health, welfare, or safety. The existence of an emergency condition creates an immediate need for supplies, services, or construction which cannot be met through normal procurement ~~methods~~ process, and the lack of which would seriously threaten one (1) or more of the following:

1.3.1.2.2.1. The health or safety of any person;

1.3.2.2.2.2. The preservation or protection of property; or

1.3.3.2.2.3. The continuation of necessary Omnitrans functions.

1.4.2.3. The CEO/General Manager (CEO/GM) or designee must declare the emergency. If that any anticipated cost exceeds \$150,000, the CEO/General Manager will attempt to get the approval of the Chairman of the Board before authorizing the request expenditure. If actual costs exceed \$150,000, CEO/GM shall make a formal report to the Board of Directors (BOD).

**GENERAL PROCUREMENT
EMERGENCY, & NON-COMPETITIVE, &
COOPERATIVE PROCUREMENTS
POLICY**

Board Approval: ~~October 2, 2019~~ October 7, 2020

**2.3. NON-COMPETITIVE ~~PROCUREMENTS/SOLE SOURCE PROCUREMENT~~
POLICY**

3.1. Procurement of supplies and services, without competition, may be authorized under limited conditions, and subject to written justification documenting the conditions which prevent competitive solicitation. The need for a non-competitive procurement is recognized when Omnitrans' interests are best served. Non competitive procurements include Single or Sole Source Procurement, Cooperative and Collaborative/Piggyback Contracts and Procurements from Government Entities ~~However, Procurement Staff are encouraged to avoid continuation of non-competitive contracts.~~

3.1.1. Collaborative Contracts (Piggybacking)

Piggybacking is an assignment of existing contract rights to purchase supplies, equipment, or services. Where possible, collaborative contracts shall be made available to other government entities.

When a contract resulted from an open and competitive advertisement, evaluation, and award, existing contracts awarded by other governmental entities may be pursued, i.e. Federal GSA Schedules.

2.1.1.3.1.2.

2.2.3.2. The conditions and limitations for use of service agreements and emergency procedures are described in Federal Transit Administration (FTA) Circular 4220.1F, Section VI.3.i (1) (b). As stated, procurement by noncompetitive proposals may be used only when the award of a contract is infeasible under small purchase procedures, sealed bids, or competitive proposals and one of the following situations prevails:

2.2.1.3.2.1. The item is available only from a single source, i.e. licensed software, patented material or process, etc.

2.2.2.3.2.2. The public exigency or emergency for the requirement prevents any delay caused by competitive solicitation. Upon determining that immediate remedial measures to avert or alleviate damage to property or to repair or restore damaged or destroyed Omnitrans property, the CEO/~~General Manager~~ may authorize the expenditure of money for the direct purchase of goods, services

or construction without the observance of competitive bidding requirements to ensure the facilities and equipment of Omnitrans are available to service the transportation needs of the general public. After any such expenditure, the CEO/~~General Manager~~ shall submit to the ~~BOD~~Board a complete report explaining the necessity of the action.

~~2.2.3.3.2.3.~~ Federal Transit Administration (FTA) authorizes non-competitive negotiations.

~~2.2.4.3.2.4.~~ After solicitation from a number of sources, Omnitrans deems competition inadequate.

~~2.2.5.3.2.5.~~ Public Calamity. In a case such as an extraordinary fire, flood, storm, epidemic, terrorist activity, or other disaster or interruption of contracts essential to the provision of daily transit service or catastrophic failure of revenue producing equipment or facilities, the CEO/~~General Manager~~ declares that public interest and necessity require immediate expenditure of money to safeguard life, health or property and direct Omnitrans to enter into contract(s) without observance of public bidding requirements. After any such expenditure, the CEO/~~General Manager~~ shall submit to the ~~BOD~~Board a complete report explaining the necessity of the action.

~~2.2.6.3.2.6.~~ The item is an associated capital maintenance item procured directly from the original manufacturer or supplier of the item. If this is the case, Omnitrans must certify in writing to the FTA (before approving the contract) that:

~~2.2.6.1.3.2.6.1.~~ The manufacturer or supplier is the only source for such item.

~~2.2.6.2.3.2.6.2.~~ The price of such item is no higher than the price paid for the item by other like customers.

~~2.2.7.3.2.7.~~ For non-FTA funded procurements, and except as may otherwise be limited by applicable law, Omnitrans determines that a non-competitive procurement is in the public interest and in the best interest of Omnitrans.

4. DIRECT PAYMENTS – Direct Payments, Exceptions to a Purchase Order

Direct Payments are to be used when it is not practicable for a Purchase Order to be issued. The following list of expenditures are approved to be issued as a Direct Payment/Non-PO. - Debt-related payments including principal, interest, letter of credit, bank and consultant fees directly related to a debt transaction
- Memberships and subscriptions
- Postage
- Escrow Deposits related and other real property transactions

~~d. As of May 2002, the FTA has rescinded its five-year contract term limitation for some FTA funded contracts, including "revenue contracts." Good procurement practice requires that Omnitrans enter into contract terms no longer than is minimally necessary to accomplish the purpose of the contract. Procurements of rolling stock and replacement parts remain limited by law to five (5) years.~~

~~12 Federal General Service Administration (GSA) Schedules~~

~~Under certain circumstances, Omnitrans may be permitted to make purchases through Federal GSA supply schedules in accordance with GSA published procedures, as outlined in the Best Practices Procurement Manual. - 1.2. The protest policy ~~herein~~ does not include the actions to be taken by Omnitrans ~~officials~~ in reacting to legal actions initiated by dissatisfied contractors in the U.S. Courts ~~pertaining to Omnitrans contract award decisions.~~
- 1.3. Omnitrans shall have the responsibility to resolve protests of all contract awards. ~~As appropriate, staff shall explore and use alternative dispute resolution procedures if it is deemed to be in the best interest of the Agency.~~

These issues include, but are not limited to, source evaluation, protest, disputes, and claims. These standards do not relieve Omnitrans of any contractual responsibilities under its contracts.~~ The Federal awarding agency will not substitute its judgment for that of Omnitrans unless the matter is primarily a Federal concern. Violations of law will be referred to the local, state, or Federal authority having proper jurisdiction. (Title 2, Code of Federal Regulations Part 200.318)
- 1.5. All Omnitrans procurements shall be conducted in a manner which assures that all prospective contractors are provided fair and equal consideration in the selection of the successful contractor and award of Omnitrans contracts in order to preserve and protect the integrity of the procurement system. 1.7.1. The mere fact that Omnitrans is a recipient of FTA funds cannot be construed as evidence of the FTA's involvement in a particular procurement.

1.8. Protest procedures are intended to ensure that valid complaints are handled expeditiously and that the protesting firm receives a fair review of the complaint. It is Omnitrans' intent that all protests be resolved at the local level. Spurious protests may be subject to civil proceedings for the recovery of compensatory and/or punitive damages. GENERAL PROCUREMENT POLICY

Board Approval: October 7, 2020

- 5.4.1.5. Specifying only a "brand name" product instead of allowing "an equal" product to be offered and describing the performance or other salient characteristics of the brand name product.
- 5.4.1.6. Any arbitrary action in the procurement process.
- 5.4.1.7. Development of specification requirements and evaluation criteria, which unnecessarily favor a specific contractor.
- 5.4.2. Procurement transactions will be conducted in a manner that prohibits the use of statutorily or administratively imposed in State or local geographical preferences in the evaluation of bids or proposals, except in those cases where applicable Federal statutes expressly mandate or encourage geographic preference. This does not preempt State licensing laws. When employing the qualifications-based method for contracting for architectural and engineering services, geographic location may be a selection criteria provided its application leaves an appropriate number of qualified firms, given the nature and size of the project, to compete for the contract.
- 5.4.3. Omnitrans will have written selection procedures for competitive negotiated procurement transactions that ensure fair, unbiased evaluation of competing proposals by an independent evaluation committee appointed by the Director of Procurement or their designee. These procedures will also ensure that all solicitations clearly state the evaluation criteria that will be considered in making the source selection.
- 5.4.4. Technical requirements shall incorporate a clear and accurate description for the material, product, or service to be procured. Such description shall not, in competitive procurements, contain features that unduly restrict competition.
- 5.4.5. Omnitrans will ensure that all lists of bidders, manufacturers, or products determined to be qualified in advance of the receipt of bids or proposals are current and sufficient to ensure full and open competition. When possible, sufficient time will be allowed to arrange for qualification before receipt of bids or proposals. However, when using grant funds, Omnitrans must allow vendors an opportunity to qualify their products during the solicitation period (FTA Circular 4220.1F).
- 5.4.6. The Procurement Department maintains a procurement history file which provides an audit trail from the initiation of a purchasing requirement through contract closeout and all other related correspondence.

SUSTAINABLE PROCUREMENT POLICY

Board Approval: October 7, 2020

1. POLICY OVERVIEW

1.1. Omnitrans encourages innovation and efficiency improvements. By adopting environmentally friendly purchasing practices, Omnitrans can reduce its environmental impact, reduce costs and liabilities, and improve environmental quality, consistent with the current FTA Circular 4220 Environmental Protections.

1.2 This policy outlines the Omnitrans' preference for environmentally friendly products, showcases Omnitrans' environmental stewardship, and directs Omnitrans departments to practice environmental sustainability to the extent possible. The primary goals are to minimize environmental impacts and promote the purchase of recycled and environmentally preferred products that:

- Conserve natural resources and materials
- Reduce the consumption of space in landfills
- Increase employee awareness that many used items can serve an additional purpose

2. GENERAL POLICIES

2.1. Whenever feasible, each department should make every reasonable effort to purchase and use recycled products or products with recycled content, to the extent such use does not adversely affect health, safety, operational efficiency, or effectiveness, as determined by each department. Nothing in this policy shall be construed as requiring the purchasing of products that do not perform adequately or are not available at a reasonable price.

2.2. Departments will review purchasing specifications and contract requirements, and where feasible, will revise such specifications and contract requirements to encourage the use of recycled products and other environmentally preferred products. Departments shall consider the ability of a product and its packaging to be reused, reconditioned, or recycled. Departments should purchase products which minimize waste and toxic by-products in their manufacturing, use, recycling, and disposal processes.

3. RECYCLED PRODUCT PREFERENCE

Whenever the Director of Procurement or designee, purchases services, supplies, materials, and/or equipment through the use of a competitive process for evaluation purposes, a price preference may be given to recycled products, reusable products offered as alternatives to

SUSTAINABLE PROCUREMENT POLICY

Board Approval: October 7, 2020

disposable products, and products designed to be recycled, where they are offered as alternatives to non-recyclable products.

The Recycled Product Preference does not apply to bids conducted jointly with other public agencies, nor when prohibited by state or federal statutes or regulations, or as may otherwise be exempted.

When bid submissions are evaluated, a five percent (5%) Recycled Product Preference shall be deducted from the total dollar amount bid by vendors on competitive quotes and bids that contain recycled or reusable products, and from the total evaluated aggregate proposal score obtained by such vendors.

The total amount of Recycled Product Preference granted in a single bid shall not exceed five-thousand dollars (\$5,0000) over a non-recyclable products vendor.

The award shall be made at the full price of the quote, bid or proposal. In the case of an absolute tie and no other tie-breaker policy is applicable, an award will be made to the recyclable/reusable products vendor. In the case of a tie between recyclable/reusable products vendors, and no other tie-breaker policy is applicable, the award will be determined by lot.

4. COORDINATION WITH OTHER LOCAL GOVERNMENTS AND AGENCIES

To the greatest extent feasible, the Omnitrans will cooperate with neighboring governmental agencies to develop a comprehensive, consistent, and effective procurement effort intended to stimulate the market for recycled products, reusable products, and products designed to be recycled.

5. IT EQUIPMENT

5.1. Preference shall be given to electronic products that:

- Have Bronze registration or higher under the Electronic Products Environmental Assessment Tool (EPEAT), or which meet similar energy efficiency standards

The method and degree of analysis depends on the facts and circumstances surrounding each procurement. As a starting point, Omnitrans will make independent cost estimates before receiving bids or proposals.

**EMERGENCY, NON-COMPETITIVE,
COOPERATIVE PROCUREMENTS, &
DIRECT PAYMENT POLICY**

Board Approval: October 7, 2020

1. POLICY OVERVIEW

This policy sets for the guidelines for emergency procurement and non-competitive procurements.

2. EMERGENCY PROCUREMENT

- 2.1. In accordance with Public Contract Code (PCC) 22050 (b)(1), Omnitrans may conduct procurement on an emergency basis if the procurement is essential to an Omnitrans requirement to deal with an existing emergency condition, as defined in the section below.
- 2.2. For purposes of an emergency procurement under this policy, an "emergency condition", is a great public calamity (such as an extraordinary fire, flood, storm, or other disaster, epidemic, pandemic, riot, terrorist activity, equipment failure), interruption of contracts essential to the provision of daily transit service, or which creates an immediate threat to the public health, welfare, or safety. The existence of an emergency condition creates an immediate need for supplies, services, or construction which cannot be met through normal procurement process, and the lack of which would seriously threaten one (1) or more of the following:
 - 2.2.1. The health or safety of any person.
 - 2.2.2. The preservation or protection of property.
 - 2.2.3. The continuation of necessary Omnitrans functions.
- 2.3. The CEO/General Manager (CEO/GM) or designee must declare the emergency. If any anticipated cost exceeds \$250,000, the CEO/GM will attempt to get the approval of the Chairman of the Board before authorizing the expenditure. If actual costs exceed \$250,000, CEO/GM shall make a formal report to the Board of Directors (BOD) and seek ratification of the emergency action.

3. NON-COMPETITIVE PROCUREMENTS

- 3.1. Procurement of supplies and services, without competition, may be authorized under limited conditions, and subject to written justification documenting the conditions which prevent competitive solicitation. The need for a non-competitive procurement is recognized when Omnitrans' interests are best served. Non-competitive procurements include Single or Sole Source Procurement, Cooperative and Collaborative/Piggyback Contracts and Procurements from Government Entities.

**EMERGENCY, NON-COMPETITIVE,
COOPERATIVE PROCUREMENTS, &
DIRECT PAYMENT POLICY**

Board Approval: October 7, 2020

3.1.1. Collaborative Contracts (Piggybacking)

Piggybacking is an assignment of existing contract rights to purchase supplies, equipment, or services. Where possible, collaborative contracts shall be made available to other government entities.

When a contract resulted from an open and competitive advertisement, evaluation, and award, existing contracts awarded by other governmental entities may be pursued, i.e. Federal GSA Schedules.

- 3.2. The conditions and limitations for use of service agreements and emergency procedures are described in Federal Transit Administration (FTA) Circular 4220.1F, Section VI.3.i (1) (b). As stated, procurement by noncompetitive proposals may be used only when the award of a contract is infeasible under small purchase procedures, sealed bids, or competitive proposals and one of the following situations prevails:

3.2.1. The item is available only from a single source, i.e. licensed software, patented material or process, etc.

3.2.2. The public exigency or emergency for the requirement prevents any delay caused by competitive solicitation. Upon determining that immediate remedial measures to avert or alleviate damage to property or to repair or restore damaged or destroyed OmniTrans property, the CEO/GM may authorize the expenditure of money for the direct purchase of goods, services or construction without the observance of competitive bidding requirements to ensure the facilities and equipment of OmniTrans are available to service the transportation needs of the general public. After any such expenditure, the CEO/GM shall submit to the BOD a complete report explaining the necessity of the expenditure and seek ratification of the emergency action.

3.2.3. Federal Transit Administration (FTA) authorizes non-competitive negotiations.

3.2.4. After solicitation from a number of sources, OmniTrans deems competition inadequate.

3.2.5. Public Calamity. In a case such as an extraordinary fire, flood, storm, epidemic, terrorist activity, or other disaster or interruption of contracts essential to the provision of daily transit service or catastrophic failure of revenue producing equipment or facilities, the CEO/GM declares that public interest and necessity

**EMERGENCY, NON-COMPETITIVE,
COOPERATIVE PROCUREMENTS, &
DIRECT PAYMENT POLICY**

Board Approval: October 7, 2020

require immediate expenditure of money to safeguard life, health or property and direct Omnitrans to enter into contract(s) without observance of public bidding requirements. After any such expenditure, the CEO/GM shall submit to the BOD complete report explaining the necessity of the action.

3.2.6. The item is an associated capital maintenance item procured directly from the original manufacturer or supplier of the item. If this is the case, Omnitrans must certify in writing to the FTA (before approving the contract) that:

3.2.6.1. The manufacturer or supplier is the only source for such item.

3.2.6.2. The price of such item is no higher than the price paid for the item by other like customers.

3.2.7. For non-FTA funded procurements, and except as may otherwise be limited by applicable law, Omnitrans determines that a non-competitive procurement is in the public interest and in the best interest of Omnitrans.

4. DIRECT PAYMENTS – Direct Payments, Exceptions to a Purchase Order

Direct Payments are to be used when it is not practicable for a Purchase Order to be issued. Expenditures, included in the following list but not limited to, are approved to be issued as a Direct Payment/Non-PO. Use of a Purchaser Order in these cases adds no value to the process because of the nature of the expenditure or provider. Provided all pertinent documents are properly approved and budgeted funds are available:

- Debt-related payments including principal, interest, letter of credit, bank and consultant fees directly related to a debt transaction
- Memberships and subscriptions
- Postage
- Escrow Deposits related and other real property transactions
- Grant Awards made by Omnitrans
- Conference registrations and trainings
- Payments for legal settlements and insurance claims.
- Payments to CalPERS, CSAC, health insurance providers and other routine payments associated with the agency's payroll operations

- Petty Cash—replenishment of petty cash when Departments have depleted their existing petty cash funds to a level requiring additional resources
- Any payment to Board members or employees, such as reimbursements, travel stipends, etc.

Board Approval: October 7, 2020

1. POLICY OVERVIEW

This policy provides basic guidance and information for Omnitrans' Procurement Card (P-Card) Program. The policy identifies what can be purchased with a P-Card and who can use the P-Card. For more detailed procedures governing the P-Card Program, please refer to Procurement Procedure 3000.

Low-dollar purchases (less than \$5,000) should generally be made using P-Cards. P-Card activities shall be monitored and audited on a random basis to ensure against unauthorized use. P-Cards used to purchase unallowed items will be cancelled. Any unauthorized purchases or uses the P-Card in an inappropriate manner, shall subject the user to disciplinary actions and repayment of unauthorized purchases, and any collection costs or attorneys' fees incurred as a result thereof, including possible termination of employment, criminal prosecution. ***P-Cards that are lost or stolen must be reported immediately to the US Bank at 1-800-344-5696 (24 hours-a-day, 365 days-a-year). The Cardholder MUST also immediately notify the Director of Finance at the first opportunity during normal business hours at (909) 379-7131.***

- 4.1. Failure to properly follow and comply with the P-Card policy and procedures shall result in cancellation of the P-Card.
- 4.2. Upon termination of employment, whether voluntary or involuntary, the P-Card must be immediately forfeited.

5. ESTABLISHING A P-CARD SYSTEM

- 5.1. Setting up a P-Card system for a department requires the following steps:
 - 5.1.1. The department selects employees to use P-Cards to procure goods and services, or for specific expenditures incurred under approved conditions.
 - 5.1.2. The Department Director/Manager submits the recommendation to the CEO/General Manager for approval and requests that P-Cards be issued to designated employee(s).
 - 5.1.3. The P-Card Administrator(s) trains all selected employees in the proper use of P-Cards before the cards are issued.
- 5.2. The Procurement Card (P-Card) is designed to increase Omnitrans' efficiency on low-dollar procurements by giving individual departments the authority and responsibility to make the procurements directly from suppliers. In this way, the P-Card eliminates the need for some purchase orders, check requests, and the use of petty cash.

PROTEST POLICY	Board Approval: October 7, 2020

1. POLICY OVERVIEW

- 1.1. The purpose is to establish policy for administrative resolution of protests arising in the procurement process and to implement applicable Federal Transit Administration (FTA) requirements and California statutes.
- 1.2. The protest policy does not include the actions to be taken by Omnitrans in reacting to legal actions initiated by dissatisfied contractors in the U.S. Courts
- 1.3. Omnitrans shall have the responsibility to resolve protests of all contract awards.
- 1.4. The FTA shall be notified in a timely manner of a third-party contract protest on contracts funded by the FTA. The FTA shall remain informed on the status of such protests.
 - 1.4.1. The Federal awarding agency will not substitute its judgment for that of Omnitrans unless the matter is primarily a Federal concern. Violations of law will be referred to the local, state, or Federal authority having proper jurisdiction. (Title 2, Code of Federal Regulations Part 200.318)
- 1.5. All Omnitrans procurements shall be conducted in a manner which assures that all prospective contractors are provided fair and equal consideration in the selection of the successful contractor and award of Omnitrans contracts in order to preserve and protect the integrity of the procurement system. To that end, any interested party shall have the right to have its complaint considered and resolved administratively by Omnitrans in an economical and expeditious manner.
- 1.6. "Interested party," as used in this Procurement Policy, means an actual or prospective offeror whose direct economic interest would be affected by the award of a contract or by the failure to award a contract. The term "interested party" includes all vendors, suppliers, contractors or consultants associated with subject procurement. The term may also include a subcontractor or supplier at any tier who shows that he/she has a substantial economic interest in the subject procurement.
- 1.7. Under certain circumstances, an interested party to procurement may protest to Omnitrans the award of a contract, which may or may not involve the direct application of funds from the FTA, if it is felt that the solicitation contained restrictive specifications or if improprieties are alleged in the procurement.
 - 1.7.1. The mere fact that Omnitrans is a recipient of FTA funds cannot be construed as evidence of the FTA's involvement in a particular procurement.

 <p>Procurement Policy Manual</p>	<p>Policy 5000</p> <p>Page 2 of 8</p>
<p>PROTEST POLICY</p>	<p>Board Approval: October 7, 2020</p>

It is Omnitrans' intent that all protests be resolved at the local level. Spurious protests may be subject to civil proceedings for the recovery of compensatory and/or punitive damages. All protests shall be filed, handled, and resolved in a manner consistent with Federal requirements. In all instances involving FTA funds, Omnitrans shall give notice to FTA regarding the protest.

or

5.4.3. A court of competent jurisdiction requests, expects, or otherwise expresses interest in Omnitrans' decision.

<p>CONTRACT ADMINISTRATION POLICY</p>	<p>Board Approval: October 7, 2020</p>

1. POLICY OVERVIEW

- 1.1. This policy addresses contract administration, from execution to closeout. When a contract is awarded, Procurement's responsibilities change from solicitation to contract administration.
- 1.2. Accurate and consistent contract administration is vital to uphold the public trust and maximize the value of public funds.
- 1.3. Federal, State, and local funds are expended in a responsible manner through contract administration activities.
- 1.4. Contracts are subject to review and audits.
- 1.5. Ensuring the contractor submits insurance certificates and endorsements; bonding documentation and all other contractually required documentation shall be the responsibility of Procurement.
- 1.6. Final contract closeout activities will be administered by Procurement prior to issuing final payment to the contractor.

2. AUTHORITY AND RESPONSIBILITY

- 2.1. The Director of Procurement is responsible for the legal, technical, and administrative sufficiency of contracts and shall seek legal, technical, and other advice in fulfilling these responsibilities.
- 2.2. The administration and monitoring of the contractor's performance shall be the responsibility of the Project Manager. The Project Manager shall notify Procurement prior to a non-performance issue becoming perpetual to remedy through the contractual process.

3. DELEGATION OF AUTHORITY

- 3.1. The Director of Procurement delegates contract administration functions to other Procurement staff. The delegation must be in writing and specify the functions delegated.

4. PROJECT MANAGEMENT

- 4.1. The requesting Department Director will designate a Project Manager to provide the Scope of Work and oversee each project to ensure its objectives are met. In the negotiated contracts, the Scope of Work defines specific tasks, milestones, and review procedures, which vary depending on the particular project.

 <p>Procurement Policy Manual</p>	<p>Policy 6000</p> <p>Page 2 of 5</p>
<p>CONTRACT ADMINISTRATION POLICY</p>	<p>Board Approval: October 7, 2020</p>

- 4.2. Complex or construction-related projects exceeding \$150,000 and occurring over an extended period of time, may require Procurement staff to conduct a competitive solicitation for a third-party Consultant/Contractor to function as Omnitrans' Project Manager.

- 4.2.1. The Consultant/Contractor will be required to document the amount of time and money spent on the work related to a particular project for a period specified in the Contract.

5. AMENDMENTS AND CHANGE ORDERS

- 5.1. Change Orders are, in effect, amendments to a contract and may be required periodically to adjust a contract amount or performance period due to unanticipated conditions. Bilateral Change Orders are signed by the CEO/GM and the Contractor when an agreed upon change order can be negotiated. Unilateral Change Orders are written orders, signed by the CEO/GM directing the Contractor to make a change to the Contract.
- 5.2. Change Orders that are neither authorized by the Changes clause nor within the general scope of the contract are considered a non-competitive procurement and are subject to the same requirements as noted in Policy 2010, Section 2, "Emergency & Non-Competitive Procurements."
- 5.3. CEO/GM may authorize an expenditure for extra work either allowable through the Changes Clause or within the general scope of the contract without the necessity of advertising for competitive bids, as follows.
- 5.3.1. Non-public works/construction - The CEO/GM has the authority to execute individual amendments/change orders up to \$25,000 or ten (10) percent of the original contract amount (whichever is greater).
- 5.3.2. Public Works/Construction - The CEO/GM has the authority to execute individual changes orders up to the following limits:

<p>CONTRACT ADMINISTRATION POLICY</p>	<p>Board Approval: October 7, 2020</p>

Original Contract Amount	Maximum Change Order Amount
Up to \$50,000	\$5,000 or up to the total contract amount of \$50,000
Over \$50,000 up to \$150,000	10% of the original contract amount or up to the total contract amount of \$150,000
Original Public Works Contract Amount	Maximum Change Order Amount
Up to \$45,000	\$5,000 or up to the total contract amount of \$45,000
Over \$45,000 up to \$175,000	10% of the original contract amount or up to the total contract amount of \$175,000

5.3.3. If the changes exceed the amounts above or the contingency amount originally authorized by the BOD, the CEO/GM must seek approval from the BOD.

- 5.4. Procurement will verify funding availability for a change/amendment and determine if the proposed change is within the original scope of work; if outside of scope a separate procurement process shall be followed: i.e. competitive or ii. sole source procurement.
- 5.5. The CEO/GM and BOD must approve cardinal changes. Cardinal changes, if authorized, may only be made by mutual agreement between Omnitrans and the Contractor, and may not be made by a unilateral Change Order. If federally funded said change must be processed as a sole source in accordance with Policy 2010 and FTA Circular 4220.1F.
- 5.6. A cost/price analysis will be completed and documented prior to the issuance of any change orders or contract modifications whenever such orders or modifications are expected to result in changes to existing cost or price, unless price reasonableness can be established based on the basis of catalog or market price of a commercial product or on the basis of prices set by law or regulation.
- 5.7. To be binding, all contract amendments and change orders shall comply with applicable laws and regulations, be appropriately documented, and properly approved.

6. PROGRESS PAYMENTS

- 6.1. Progress Payments. Progress payments may be issued provided the following requirements are met:
 - 1) Considered to be to the best interest of Omnitrans or required in accordance with applicable law.

 <p>Procurement Policy Manual</p>	<p>Policy 6000</p> <p>Page 4 of 5</p>

2) Issued to the contractor for costs incurred in the performance of the contract.

3) Adequate security is obtained, may include taking title, letter of credit or equivalent.

6.2. Formal Review of Progress Payments. Requests for progress payments shall be formally reviewed with results documented and filed with each Contract.

7. ADVANCED PAYMENT TO CONTRACTORS

ITEM # F3

DATE: October 7, 2020

TO: Board Chair David Avila and Members of the Omnitrans Board of Directors

FROM: Erin Rogers, CEO/General Manager

SUBJECT: CEO/GENERAL MANAGER’S REPORT

American Bus Benchmarking Group Virtual Annual Meeting - On September 28th and 29th the American Bus Benchmarking Group (ABBG) held its Virtual Annual Meeting. ABBG is a consortium of mid-sized bus transit agencies in North America that was established to benchmark performance and share experiences and best practices. Topics of discussion largely focused on the response to and recovery from the pandemic, including service restoration and planning for the future. Director of Strategic Development, Jeremiah Bryant moderated a session entitled Restoring Ridership & Public Trust.

Legislative Update - An updated version of the Health and Economic Recovery Omnibus Emergency Solutions (HEROES) Act was released Sept. 28. This updated version includes \$32 billion for the transit industry and \$2.4 billion for Amtrak. Our industry associations at both the state and federal level, the California Transit Association (CTA) and the American Public Transportation Association (APTA) have been strong advocates on behalf of the industry for additional emergency funding.

APTA Health and Safety Commitments Program - Along with 165 other public transportation agencies from across the country, Omnitrans has signed on to APTA’s Health and Safety Commitments Program. This program is the public transportation industry’s overarching pledge to passengers that our systems are operating safely as North America recovers from the COVID-19 pandemic. As part of this program, Omnitrans signed a pledge, will be displaying “seal” of commitment on our fleet, and using other various public information and marketing materials made available as part of the program.

Transition to Hybrid/In-Person Committee Meetings – Starting with the October Administrative and Finance and Plans and Programs Committee meetings, Members will be offered a Hybrid/In-person meeting alternative. Those who wish to attend in person may do so, and those who prefer to continue participating virtually may do so. As detailed in the Board agenda, the board room has been equipped with the technology to accommodate this arrangement as we prepare to transition back to in-person meetings in the future.
