

FY 2024

Management Plan

Letter from the Chief Executive Officer / General Manager

To the Omnitrans Community:

After three years of managing through the pandemic, Omnitrans can finally focus entirely on implementing the 2020-2025 Strategic Plan.

The Omnitrans team—from operators to maintenance workers to administrative staff—continues to incorporate the lessons of the pandemic in providing service. Those lessons are now a “new normal.”

Unfortunately for most transit agencies in the country, this “new normal” includes facing significant financial shortfalls, workforce shortages, and declining ridership.

Fortunately for Omnitrans, the agency finds itself in a strong position financially and with ridership slowly growing. Like other transit agencies, though, Omnitrans faces workforce shortages that impact current and future service.

The key themes for this Management Plan are service resumption and ridership growth, workforce, and organizational readiness. We look to strike a balance among these themes to build ridership in 2024 and position the Agency for strategic growth.

Service Resumption and Ridership Growth

Resuming service and building ridership remain Omnitrans’ top priority. The Strategic Plan calls for providing levels of service commensurate with available funding. Fortunately, the Agency has been able to manage Federal and State pandemic-related funding to provide a level of service that will begin the year at 81 percent of pre-pandemic planned service and planned to reach full-planned service by the end of the year.

I am pleased to report that we have sufficient funding to provide all planned services for the next seven years, until the end of the decade. We intend to balance additional service with available funding.

Workforce

The tight labor market and increasing inflation make recruiting, developing, and retaining staff Omnitrans’ most pressing challenge. I commend the Omnitrans team for their dedication and willingness to go above and beyond to restore service to the current level and meet the demands of daily service delivery while acknowledging that doing more with the constrained workforce we have is not sustainable.

Omnitrans recognizes that to become an employer of choice means not only recruiting qualified people but having a corporate culture that is challenging, rewarding, and even fun.

Over the past fiscal year, Omnitrans evaluated its job classifications, aligned annual reviews and compensation with management plan goals, and established apprenticeship programs with San Bernardino Valley College. We have also undertaken a Culture Renovation effort to improve the Agency's corporate culture and enhance equity and inclusion.

In the coming fiscal year, we will remain focused on these efforts as we consider innovative approaches to staffing and recruitment.

Organizational Readiness

Fiscal Year 2024 will also be a year of preparation for several projects that will help Omnitrans fulfill its vision to provide innovative mobility solutions for the region. Chief among these are the West Valley Connector—the new sbX Purple Line—scheduled to begin service in 2025, and the Agency's transition to a zero-emission fleet, already underway.

In partnership with SBCTA, Omnitrans has received several major grant awards to implement the West Valley Connector bringing the total competitive grants for this project to nearly \$200 million, with recent awards from the Federal Transit Administration Capital Investment Grants program and the California State Transportation Agency Transit and Intercity Rail Capital Program.

Another example of the need for organizational readiness is zero-emission bus (ZEB) deployment. The California Air Resources Board (CARB) Innovative Clean Transit Regulation calls for all buses to be zero-emitting by 2040. Omnitrans currently operates four battery electric buses and has entered into an agreement for 18 additional battery electric buses in the coming year.

The Agency also purchased four fuel cell electric buses to be delivered in 2024 and intends to evaluate the performance of both battery electric and fuel cell electric buses to determine the right mix of ZEB rolling stock.

Transitioning to ZEBs also requires upgrading maintenance facilities and employee training. We are focused on organization readiness including expanded apprenticeship programs with partners such as San Bernardino Valley College and training employees on the ZEB technology.

Omnitrans also continues to work with SBCTA, county and city partners on the Tunnel to Ontario International Airport and Cucamonga Station projects, which will connect local bus, BRT, commuter rail and high-speed rail near the end of the decade.

In reviewing the past Management Plans, I am reminded how much the Omnitrans team—the Board, operators, maintenance staff, and administrative staff—has accomplished through very trying times. I am grateful for the team’s dedication, perseverance, and can-do attitude. Together we have placed Omnitrans on a strong foundation to deliver on our promises for the future and provide the quality service our customers and community deserve.

Sincerely,

Erin Rogers
CEO and General Manager

Overview of the Strategic Plan Framework

The FY2024 Management Plan is grounded in Omnitrans' Vision, Mission, Values, and Strategic Directions. Incorporating these foundational elements into this year's action plans serves as a qualitative metric of Omnitrans' overall performance.

Omnitrans' Vision

Omnitrans provides innovative mobility solutions that connect our region and strengthen the economy.

Omnitrans' Mission Statement

Omnitrans connects our community with coordinated and sustainable transit service.

Omnitrans' Values

Safety: We put safety first in everything we do.

Customer-Focused: We are responsive to customer needs, enhancing access to opportunities and services.

Performance: We are good stewards of public funds, using our resources efficiently and responsibly for maximum performance in order to promote ridership growth.

Integrity: We are honest, trustworthy, and transparent.

Innovation: We explore new ideas to improve service, support our employees, maximize performance, and protect the environment.

Diversity: We promote equity and respect the broad range of backgrounds, perspectives and ideas represented by our employees and community.

Collaboration: We partner to create mobility solutions that meet a wide range of community needs.

Leadership: We advocate for safe and affordable transit and its value to the community.

Strategic Directions

Secure our finances long-term, and explore new funding sources

Expand our customer base

Explore our role in providing mobility as a service

Engage in local and regional planning, promoting transit as a solution

Strengthen our communication

Be bold, entrepreneurial, and innovative

Implementation

Collaboration among the functional units was essential to meeting the challenges of FY2023. Similarly, in FY2024 the performance of each functional unit will not only be the result of implementing discrete action in a particular goal area but the result of working across functional units as well to achieve the Agency’s primary objective:

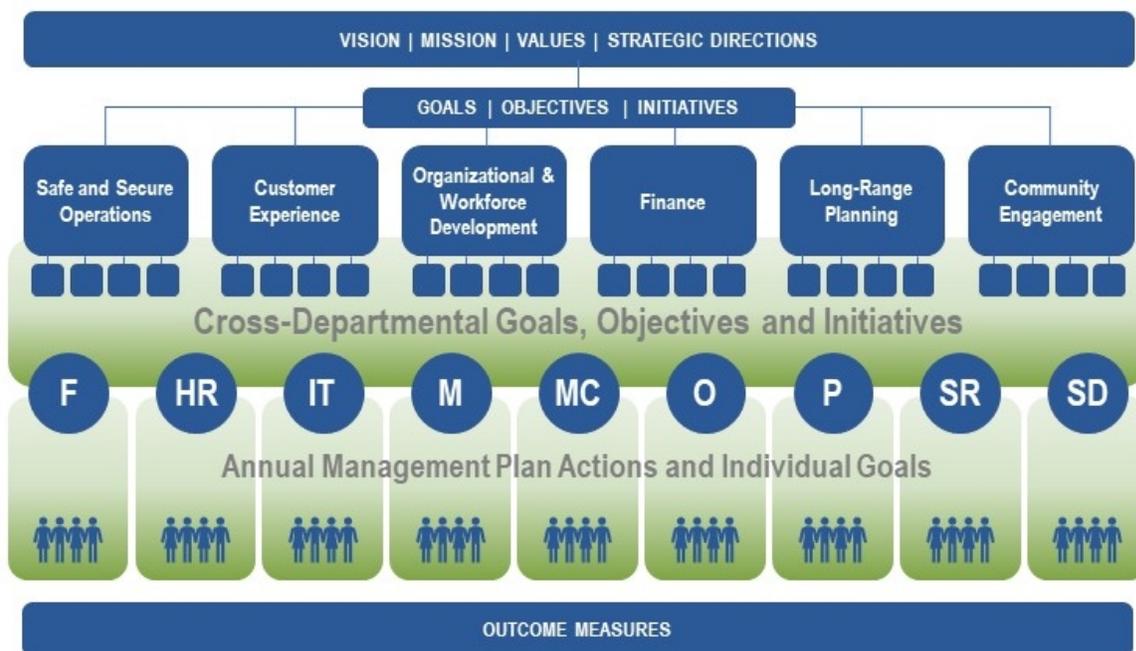

Safe and reliable transit service that meets the needs of our riders, employees, and stakeholders

The infographic below provides a sense of how the different Senior Leadership Team members will collaborate with one another on the six primary goals of the Management Plan.

Following the adoption of the Strategic Plan, the Agency reorganized the performance evaluation process for administrative employees to achieve two key objectives: align all performance evaluations with the Agency’s fiscal year and sync individual goals to departmental goals, the management plan, and the overall strategic plan. In this way, both individual and department goals directly implement the annual management plan.

The Agency implemented the new performance evaluation process in FY2023. Employees and their supervisors understand performance expectations and how those expectations advance the Agency’s objectives.
