

Weekday Changes
Routes 6, 8, 10, 61, 66, 85, and sbX will have additional frequency added. Routes 215, 290, and 367 will have minor time adjustments.

Saturday Changes
Routes 3, 4, 61, 66, and 215 will have additional frequency added.

Sunday Changes
Routes 61, 66, and 215 will have frequency added.

Transit Ambassadors

This summer, a new team of Transit Ambassadors will be present on Omnitrans buses and at transit centers to help connect customers with resources and information. If customers need help finding their way around our system, have questions about routes and services, or want to report a concern or a complaint, Transit Ambassadors can help.

The Transit Ambassador program is not replacing Omnitrans security, but will add a friendly presence onboard buses to help passengers feel safe about where they where they need to go. Transit ambassamdors will be there to help customers take advantage of Omnitrans’ tools for riding, such as accessing the Transit app, using the farebox, requesting a stop, and more. The ambassadors will be easily identifiable in black polo shirts and safety vests reading “Omnitrans Transit Ambassador.”

Instead of the green polo shirt pictured above, Transit Ambassadors will wear black polo shirts and yellow safety vests.

More Service Returns!
As you recall, in January Omnitrans restored lots of service to its routes, and brought back the popular Route 290 Freeway Express. As we jump into summer, you’ll be happy to know that even more service will be restored to some of your favorite routes. **Routes sbX, 3, 4, 6, 8, 10, 61, 85, 215, and 290** will have frequency added to at least one of their service days. See details for each route on the next page.

More sbX, more often! Weekday sbX service is expanding to 10 minute frequency.

New Service Alert System

Getting real-time alerts about Omnitrans service is changing, for the better! Starting in May, a new service alert system will be available. This means you can receive up-to-date and timely information on detours, bus stop closures, events, and more. How to use it? Simply visit omnitrans.org/suscribe to sign up and create customized information on the routes you use, news you want, and more.

You can also view current system-wide, service delays and detours by visiting omnitrans.org/alerts.

Because we value our customer’s feedback, the Transit Ambassadors will also be seeking passenger input with occasional short surveys about Omnitrans’ services. All Transit Ambassadors are bilingual (English and Spanish).

The Transit Ambassador program is the result of a partnership with the El Sol Neighborhood Educational Center, which helps empower communities to lead healthy lives by connecting them with access to health care, affordable housing and opportunities for education. To learn more about El Sol, visit elsolnec.org.

The Transit Ambassador program is being funded by the Sustainable Transportation Equity Project (STEP) grant through the California Air Resource Board (CARB). To learn more about CARB and the STEP grant, visit ww2.arb.ca.gov.
